DUNN TAKES STAND

White-Haired Man Accused of Alice Cothrell's Death a Witness in His Own Behalf.

DEFENSE IS PROVING CHARACTER

Charles Dunn, accused of the murder of Alice Cothrell on the 2d of last July, took the witness stand in his own defense late this afternoon. It is probable that his examination and cross-examination will consume all of today and part of tomorrow.

Beginning the presentation of the defense's side of the Dunn case at the opening of court this morning, Mr. Colerick in his statement to the court and jury first outlined briefly the law governing such cases, and then set forth in some detail the points which the defense expects to prove in support of its claim that Charles Dunn is innocent. Mr. Colerick spoke with much earnestness, and was at times most eloquent.

The evidence of the morning was for the most part introduced to establish defendant's general reputation for kindness and humanity, and in the cross-examination the state's attorneys went searchingly into witnesses' knowledge of Dunn's life previous to the date of his arrest.

The question as to whether or not Marie Sampleson could have seen the barn doors from the point at which she stood in the yard Tuesday afternoon has evidently been receiving close attention from both the defense and the state, and several witnesses this morning were examined upon this point.

It is evident the defense is expecting very important testimony from its expert witnesses, Dr. Maurice Rosenthal, Dr. G. L. Greenawalt and Dr. W. H. Myers, who will be called to testify tomorrow.

While it is impossible at this time to estimate accurately when the case will be finished, attorneys today were of the opinion that the case would not go to the jury during the present week. The direct evidence will doubtless be completed tomorrow, and it is not now known whether the state will offer any testimony in rebuttal or not. Following this will come the arguments of the counsel, and it is within the province of the court to determine how much time will be given for the addresses to the jury. Then must come the judge's charge to that body, and the attorneys do not believe the case can get to the jury before early in the coming week.

FEWER WOMEN THERE.

The audience present at the opening of the Dunn trial this morning was fully as large as those which have preceded it. All the seats in the spectators' section were occupied, and a heavy overflow stood in the lobby behind, but it was noted that there were fewer women in the audience than have been present for the past two days. Despite this, there was still a good-sized representation of the fair sex, and nearly all had removed their hats. Dunn was brought into court a few moments before 9, and the various attorneys came in soon after. The prisoner seated himself at the attorneys' table, and after speaking for a time with his son, placed his spectacles in position and began examining intently some letters or documents which he drew from his pocket. Then he had a whispered conference with Detective Mahon, calling the latter's attention to some of the papers.

MR. COLERICK OPENS.

Mr. Colerick in outlining the case to the jury, said that the evidence of the state had already been presented, and it was now the desire of the defense to offer evidence in his own behalf.

Mr. Colerick, in setting forth the principles of law, said it was necessary for the state in this case to establish its case by evidence beyond all reasonable doubt. The law only requires that there shall be the same certainty in the case of circumstantial evidence as though it were done by direct evidence; that each link in the chain of circumstances be as strong as the other. Motive must be clearly shown.

In this case the defense will undertake to show to the extent of total annihilation that there never was a motive or a reason for this defendent in the sixty-second year of his age to wantonly take the life of a puny, sickly, ten-year-old babe.

ABSENCE OF MOTIVE.

We will show that no motive rested in the heart of this man to seek the life of that child. We will undertake to show that at no time was this defendant ever attracted to that child. We expect to show by specific as well as by general evidence that this man has lived for many years in this vicinity and has built up a character for gentleness, kindness and charity.

We expect to show that no mark existed indicating the placing of a human hand upon that child.

We expect to show, not by witness who made an examination of the body of the little girl in a dimly lighted room by the aid of a lamp, but by expert medical men who made their examination in broad day light, cut down on the parts, took them away and subjected them to examination under a microscope of a thousand magnifying power—that no force whatever was used upon the little child before her death.

NO EVIDENCE OF IMPURITY.

Mr. Colerick said the defense expected to show by the evidence of physicians that there was no indication of impurity in the organs of the dead girl. We expect to show that in cases of death by drowning the blubbery substance will come from the lungs, as it did in the case of Alice Cothrell, but not in cases of death by strangulation. We expect to produce on this witness stand the man who broke that hyoid bone after the girl was dead; we expect to show just how and when that bone was fractured. We expect to show that the hymen was not broken; that it contained no indention that would result from a started rupture.

State has introduced evidence with reference to statements alleged to have been made by defendant to Marie Sampleson. We will meet those by the only method that can be used when no others were present—by Dunn's denial that he made them; and by the further fact that he has borne for thirty years in this section the reputation of a truthful and an honest man.

Mr. Colerick said they would introduce a witness for the state to prove that on the morning of the day the chicken yard had been searched by several men to whom Dunn called out angrily, defendant had given him permission to search it, and that it had been thoroughly searched previously.

MISS SAMPLESON'S TESTIMONY.

Regarding Marie Sampleson's statement that she was threatened by Dunn, we expect to show that when Marie was brought to the coroner's inquest she was under suspicion herself, and that Dunn's only injunction to her was to be careful what she said. We expect to show that before she went into the coroner's inquest she told a newspaper man that she had heard screams and that they were out in front of Haire's. We expect to show that Marie Sampleson's eyes were the last that ever rested upon the girl alive.

In concluding, Mr. Colerick asked of the jury the same careful attention they had given from the first and a fair, calm consideration of the evidence and the instructions of the court.

THE FIRST WITNESS.

Matthew Ferguson was the first witness called by the defense, and examination was conducted by Mr. Morris. Mr. Ferguson said: Have been township trustee and county commissioner; traveled extensively over the county; first knew Dunn twelve years ago.

State objected to questions tending to show Dunn's general moral character. The point was argued at some length and a number of authorities were cited. Judge O'Rourke ruled that a trait of character might be shown, but he believed it improper to introduce this evidence where no attack had been made on the general moral character.

Witness said Dunn's reputation for kindness and humanity was good.

WILL AWE TURKEY

FRENCH SQUADRON SAILS FOR THE LEVANT.

THE PORTE MUST PAY BILLS

PORT OF SMYRNA LIKELY TO BE SEIZED.

A FRENCH OFFICIAL TALKS

FORCE WILL BE EMPLOYED IF NECESSARY.

Paris, Oct. 31.—The officials of the French office confirm the report that a division of the French Mediterranean fleet, composed of three battleships and two cruisers, under the command of Admiral Caillard, has proceeded from Toulaan to the Levant, to make a naval demonstration against Turkey.

A foreign office official, in communicating the foregoing to the correspondent here of the Associated Press, said:

"The squadron sailed with sealed orders, and proceeds first to a Greek port, the Island of Syra, I think, where the admiral will receive definite instructions as to carrying out his sealed orders. I am not at liberty to say what the sealed orders are, but the seizure of the customs at Smyrna would probably be a very effective way of convincing the sultan that France's patience is exhausted and that we have decided to enforce an immediate execution of the Turkish government's engagements. We, however, are very hopeful that the sultan will not compel us to go to that extreme.

"Our squadron will not reach the Greek port before Sunday. The Turkish government has thus still three days' grace, and we trust in the meantime to receive complete satisfaction. We have acted very considerately toward Turkey, hoping, up to the last moment, that she would carry out her engagements, and it is only now, when we find that there is no serious indication of her doing so, that we have reluctantly resolved to put stronger pressure to bear in the shape of a naval demonstration.

"It is now two months since the French ambassador, M. Constans, left Constantinople. His departure failed to produce the desired effect.

"On the contrary, even the quays and tubini questions, which were settled by the sultan's irades, remain unsatisfied.

"The internal situation in the Turkish empire deterred us for some time from taking drastic measures to enforce our demands. But the dignity of France could not permit the present state of affairs to be prolonged indefinitely. We sincerely hope the sultan will fully appreciate the fact that we cannot any longer be trifled with, and relieve us of taking further steps to safeguard our interests."

The official was asked what would happen in the event of the French squadron being ordered to seize the customs and if the Turkish authorities resisted, and he replied:

"That is a very unlikely contingency, but if it occurs, I suppose we shall have to bombard the port. We do not want bloodshed, and I do not believe there will be any occasion for it."

ALSO WANT THEIR PAY.

Constantinople, Oct. 31.—A mutinous demonstration was made in front of the admiralty offices Tuesday by 600 officers and non-commissioned Bashibazouks, which caused dismay among the occupants of the yildiz palace. The pay of those who took part in the demonstration is several months in arrears, and only a promise of prompt settlement prevented the carrying out of threats of further action. The pay of all the troops, with the exception of the marines, is paid with fair regularity, because they furnish the guard at the weekly selamike and discontent among them might result in serious consequences to Sultan Abdul Hamid.

REHEARING PLAN CHECKED.

Indianapolis, Oct. 31.—An attempt to get a rehearing granted in the case of Charles F. Flutter vs. the New York, Chicago and St. Louis Railroad company with the apparent purpose of causing the opinion of the supreme court holding the company liable for Flutter's injuries to be discredited as an authority, resulted in the prompt overruling of the petition for a rehearing yesterday by the supreme court.

The petition has been lost, but the attorneys for both parties filed an application yesterday for a rehearing, stating that the suit had been compromised and that all parties concerned desired a rehearing. The order making the former judgment and opinion absolute followed yesterday. Flutter was injured while working for the company by tripping over some wires used in operating a semaphore that composed a part of the company's block system. The opinion of the supreme court reversing a judgment in favor of the defendant declared the liability of the railroad companies under circumstances which railroad attorneys generally had thought did not create any liability, and if a rehearing had been granted this opinion would not have been printed in the official report of the court's decisions.

Vesey & Heaton were attorneys for plaintiff and Olds & Doughman for the defendant.

SHE SEEMS TO BE DESERTED

BRIDE OF SIX WEEKS LEFT BY HER HUSBAND.

H. M. Crane, Who Claims to Be a Traveling Salesman, Left Her at Wayne Hotel Last Monday.

Mrs. H. M. Crane is registered at the Wayne and occupies room 22. She arrived at the hotel last Monday in company with her husband and her lady friend, and the former she has not seen since he left her at the hotel desk, although she is anxious to. Her story is more or less pathetic. She says she was married to Crane about six weeks ago at St. Louis, from which city he travels as a salesman for a plumbers' supply house. Last week she visited friends at Bluffton and with her husband and lady friend came to Fort Wayne on Monday. Her husband took the two ladies to the hotel and stated that he would not register, because he did not know how long he would stay, as he had some important business to transact with city officials, but would be back shortly, meanwhile telling his wife and her friend to take a room together, which they did. Mr. Crane immediately went to the Aveline house, where he registered and was assigned to room 20. Early on Tuesday morning he paid his bill, pulled his freight and left on an early morning train and has not since been heard from. Mrs. Crane yesterday became alarmed at his protracted absence and called on several gentlemen with whom her husband had told her he had important business engagements. None of the gentlemen knew her husband and had never heard of him. Mrs. Crane is without money and is distracted. She stated to a gentleman upon whom she called yesterday, that she could not divine any reason her husband could have for deserting her.

WILL BE WED TONIGHT.

Wiegand Kempf and Miss Martha Raquet will be married this evening, and after the ceremony there will be a reception at the corner of Holman and Hanna streets, at the residence of the bride's sister, Mrs. George Sunley. Mr. Kempf, familiarly known to his friends as "Wig," was for a number of years a pressman employed by the Newspaper Union, and less than a year ago removed to Sioux City, Iowa, where he is in charge of the press room of the same company in the branch at that city. He is a member of Fort Wayne lodge, No. 116, K. of P., and was formerly a member of the Olympia and First Regiment bands. His musician friends will serenade him this evening and commit other depredations that he will never forget.

THE OPHIR AT YARMOUTH.

Yarmouth, Isle of Wight, Oct. 31.—The Ophir, with the fleet, anchored off Yarmouth, Isle of Wight, at 4 p. m. King Edward and Queen Alexandra left London by special train at 5 p. m. for Portsmouth. The children of the Duke and Duchess of Cornwall and York are with their majesties.

PLAGUE AT LIVERPOOL.

Rome, Oct. 31.—The port of Liverpool, England, has been declared infected with the bubonic plague. Arrivals from Liverpool at Italian ports will undergo the customary disinfection.

Bordeaux, France, Oct. 31.—Ministerial instructions have been received here to disinfect all vessels arriving at Bordeaux from Liverpool.

A DEFENSE READY

TURKEY WILL RESIST REPAYMENT OF RANSOM.

A PHASE OF THE STONE CASE

PORTE WILL REPUDIATE ALL RESPONSIBILITY.

HOLDS MISSIONARY TO BLAME

FOR HER CAPTURE BY BULGARIAN BRIGANDS.

Constantinople, Oct. 31—The Turkish government is already preparing to resist the anticipated demand of the United States for repayment of the ransom necessary to secure the release of Miss Ellen M. Stone, the abducted American missionary.

The porte repudiates all responsibility for the kidnaping of Miss Stone and maintains that the United States has no claim against Turkey and that, therefore, the latter is justified in refusing to recoup the United States for the money expended in her rescue.

A high Turkish official this morning informed a representative of the Associated Press that the Turkish resistance of any claims would be based upon the contentions:

First, that Miss Stone, although warned of the dangers of the road, persisted in traveling; second, that she did not notify the authorities of her intention in order to obtain an escort, which precaution even the foreign consuls always take when traveling in such outlying, insecure districts of the empire, and, third, that the brigands who kidnaped Miss Stone and her companions were Bulgarians, that the coup was planned in Bulgaria and that sanctuary was found in Bulgarian territory.

RECEPTION FOR MISS STONE.

New York, Oct. 31.—Americans are preparing a reception for Miss Stone upon her release, says a Sofia correspondent of the Journal and Advertiser. The Russian minister, M. Bakhmeteff, expects a letter soon from Miss Stone and the brigands through the envoy sent last Friday. It is believed that Miss Stone will be able to be present at Philipolis on November 8 at the dedication of the new American church. After that she will doubtless go to the United States to see her relatives.

It is hoped that Miss Stone will be able to reach America by Thanksgiving day in case she is released by the brigands.

DO NOT BELIEVE HER DEAD.

Washington, Oct. 31.—Referring to the opinion expressed yesterday in some of the Russian publications to the effect that Miss Stone is probably dead, it may be stated that the state department is convinced to the contrary and is satisfied that with the means of communication it now has at its disposal the event of Miss Stone's death would be made known to it. The department is in almost hourly communication with its agents in Turkey and Bulgaria. The latest information received indicates that communication has been established with the brigands themselves. The department officials are sanguine of the outcome.

TRIAL OF JAMES CALLAHAN.

Omaha, Neb., Oct. 31.—Attorney Sears, Mr. Cudahy's private counsel, was the first witness today in the trial of James Callahan on the charge of perjury in his testimony during the kidnaping trial. Mr. Sears testified that he withdrew from an Omaha bank the sum of $25,000 in gold, which he placed in the hands of Mr. Cudahy with which to pay the ransom demanded by the kidnapers for the return of his son Samuel Burris, who sold the famous bay pony to the alleged kidnapers, was put on the stand to identify Callahan as one of the parties to the deal. Mrs. Wittum, who lived in the vicinity of the alleged hiding place of Callahan and his companions, testified to seeing them frequently and positively identified Callahan as one of the men whom she saw driving the pony.

PRESIDENT WILL VOTE.

Washington, Oct. 31.—President Roosevelt and Secretary Cortelyou will leave for New York early next Monday morning to vote on Tuesday. The president and Mr. Cortelyou are both from the same county in New York and their voting precincts are only seven or eight miles apart. President Roosevelt will vote at Oyster Bay, L. I., and Secretary Cortelyou at Hempstead, L. I. Both will vote early and return to Washington Tuesday afternoon, arriving here Tuesday evening. Mrs. Roosevelt will accompany the president. She has some matters at Oyster Bay which she desires to arrange during the visit. Assistant Secretary Loeb and Henry Pickney, the president's colored steward, will go with the party. Mr. Loeb and the steward are residents of Oyster Bay and will vote there.

NOW PROPERLY MARRIED.

London, Oct. 31.—Earl Russell and Mrs. Somerville were married at the registry office in London this morning.

WILL OPEN LIBRARY BIDS

TRUSTEES TO GET FIGURES THIS EVENING.

Plans Are Very Fine and It Is Not Unlikely Bids Will Exceed Carnegie Donation.

The board of school trustees will meet this evening at the office of Superintendent Study at the high school building to open bids for the new Carnegie library building. On account of the restrictions placed upon the constractors, requiring that all the stone used in the construction of the building should be cut in Fort Wayne, it is not believed that there will be any foreign bidders and it is not thought that there will be over four or five bids presented. The plans were prepared by Architect Grindle and contractors who have seen them say they are the most complete working plans they have ever had to make estimates from. As is well known, the amount of money donated by Mr. Carnegie for library purposes in Fort Wayne is $75,000, but it is intimated, and on very good authority too, that the building outlined by Mr. Grindle can not be built for anything like that sum—that not less than $90,000 or possibly $100,000 would be required to carry out the architect's ideas. Treasurer Rockhill, of the school board, when asked about the matter, said that he could say absolutely nothing, as he had not yet seen the bids. When asked what would be done in case the bids far exceeded the donation he said he could not anticipate what the bids would be and could not even guess what the board would do. He said that he presumed if the bids were not at too great variance with the donation, the plans could be modified by the architect so as to come within reach of the money in sight. He declined, however, to even make a guess as to what would be done.

CEBU INSURGENTS QUIT

LAY DOWN THEIR ARMS AND SURRENDER.

Act in Good Faith, Says General Hughes, in Obedience to Demand of People for Peace.

Washington, Oct. 31.—An important cablegram was received at the war department this afternoon from General Chaffee. It follows in part:

"Manila, Oct. 31.—Adjutant General, Washington—The following from Brigadier General Hughes: 'Insurrecto forces Cebu island have come in, laid down arms in good faith in obedience to demand of people for peace; 150 rifles, eight brass pieces, sixty officers, 470 men. Affairs not yet satisfactory Bohol Island; may move additional troops there to force settlement.

" 'This settles for present, at least, disturbance hereto existing in Cebu. Future disorders that island will be made by deliberate action of inhabitants, as peace may be easily preserved if people disposed to do so.'

"Shall advise Hughes waste no time, but move on Bohol immediately.

(Signed.) "Chaffee."

BANKS CONSOLIDATED.

Colorado Springs, Col., Oct. 31.—The First National bank of Colorado City has been organized, being a consolidation of the interests of the Citizens' State bank of Colorado City and those of a number of Kansas capitalists.

CLOSE THEIR CASE

DEFENSE IN SCHLEY TRIAL HAS FINISHED.

LAST WITNESS IS HEARD

DEPARTMENT HAS TESTIMONY IN REBUTTAL.

WOULD IMPEACH WITNESSES

SCHLEY NOT TO CORRECT HIS STATEMENTS AT ONCE.

Washington, Oct. 31.—When the Schley court of inquiry opened today Capt. T. S. Borden was called as the first witness for the day and as the last witness who was to testify in Admiral Schley's behalf. When he had finished Mr. Raynor said, at 11:05: "May it please the court, we have closed our case."

It had been expected that Admiral Barker would be called but it has laterly been decided that his testimony, if given, would not be material, and it is not now expected that he will testify. Captain Borden is an officer in the marine corps and served on the Brooklyn during the Cuban campaign.

His testimony was, therefore, largely corroborative of the evidence which has heretofore been given by others who were on the Brooklyn.

The remainder of the day it was expected when the court opened would be taken up with the hearing of witnesses called by the navy department for the purpose of impeaching certain parts of the testimony given in support of Admiral Schley. Included in the list for this purpose is Capt. Charles D. Sigsbee, of the St. Paul; Capt. Francis E. Chadwick, of Admiral Sampson's flagship, the New York; Mr. Sylvester Scoville, who was a newspaper correspondent in Cuban waters during the campaign; Major T. N. Wood, who served on board the Massachusetts as marine officer; Lieutenant Commander Potts and Lieutenant Grant, who also were on the Massachusetts, and Capt. Joseph G. Eaton, who was on the Resolute.

SIGSBEE RECALLED.

Captain Sigsbee had been called for the purpose of rebutting the testimony as to his message to the Somers N. Smith press boat, and also his conversation on the Brooklyn, to which witnesses have testified that he told Commodore Schley the Spaniards were not in Santiago.

Mr. Scoville also was summoned for the purpose of rebutting the testimony as to Captain Sigsbee's message to the press boat Somers N. Smith.

Captain Chadwick was called to testify concerning the conference between Admiral Sampson and Commodore Schley on May 19. Major Wood, Commander Potts and Lieutenant Grant were expected to testify relative to the wardroom conversation on the Massachusetts on May 31, in which Lieutenant Sears is alleged to have spoken of the difficulty of getting Admiral Schley to embark upon the reconnoissance in the harbor at Santiago, which took place on that day. The counsel of Admiral Schley was prepared to make technical objections to most of this testimony, and the day began with the prospect that much of the time would be occupied in discussing points at issue between the counsel on the two sides of the case.

Admiral Schley will probably not return to the witness stand for the correction of his testimony for two or three days.

Captain Borden said that he had been junior marine officer on the Brooklyn. In reply to questions from Mr. Raynor he said he had seen Commodore Schley three times during the battle, and that his bearing was "everything that the officers and crew could have expected."

When Captain Borden had concluded Mr. Raynor made announcement that the defense had no more witnesses to call and had closed its case.

SCHLEY'S REPORT.

Captain Parker then asked to have put in evidence a number of documents, including the report of the battle of July 3, Admiral Schley made from Montevidio, June 13, 1900. This report never has been presented. Following is an extract from it:

"In my judgment from an unobstructed view of the entire field of action during the combat the Vizcaya was not more than 1,000 yards

No one needs to be told to try to cure a cough. But any one will be glad to be told of a means of cure which will be thorough and lasting. Dr. Pierce's Golden Medical Discovery is a medicine which can be confidently relied on to cure diseases of the organs of respiration. It cures obstinate, deep-seated coughs, bronchitis and bleeding of the lungs. It cures when nothing else will cure, and the local physician says: "There is nothing more that we can do."

There is no alcohol in "Golden Medical Discovery," and it is absolutely free from opium, cocaine and all other narcotics.

The dealer, tempted by the little more profit paid by less meritorious medicines, will sometimes try and sell a substitute when the "Discovery" is asked for. No substitute medicine will satisfy the sick like "Golden Medical Discovery." It always helps. It almost always cures.

"Two years ago a severe cough started on me and I was also bothered with catarrh," writes Mr. F. Skjod, of Danewood, Chicago Co., Minn. "I could not sleep nights, as the cough was worse at night. I tried several cough medicines, but to no avail, until a year ago, when I got so bad I could not breathe through my nose at times. I then tried Dr. Pierce's Golden Medical Discovery. After taking eight bottles of Dr. Pierce's Golden Medical Discovery, and at the same time using Dr. Sage's Catarrh Remedy, I am a well man. I can thank Dr. Pierce for my good health, and will recommend his medicines to any one suffering from the same trouble."

DUNN TAKES STAND

(Continued From First Page.)

On the cross-examination by Judge Hench witness said he heard of Dunn running into John Poinsett when the latter was injured, but did not hear that Dunn was intoxicated. Asked if he had heard of Dunn being arrested in Noble county for assault and battery on his own wife, witness said "no." Witness said he had heard since his arrest that Dunn had been suspected of attempts at criminal operations. Did not know Dunn in either Noble or DeKalb county.

Charles M. Gillette called; recorder of Allen county; have lived in Allen county fifty-six years; am acquainted with Charles Dunn; have known him about thirty years. Court sustained objection of state's attorney to questions relating to Dunn's reputation for honesty. Witness said Dunn's reputation for humanity and kindness was good.

Replying to Judge Hench, Mr. Gillette said he was not acquainted with people at Wallen; did not know what Dunn's reputation for kindness and humanity was at Wallen.

WAS ALSO STATE WITNESS.

Walter Haire called; was a witness for the state; know location of Dunn's chicken yard, where high weeds grew; witness did not search that yard; did not see Badiac and others there; were weeds and raspberry bushes in patch; picket fence surrounded it; did not see Badiac and others search chicken yard.

When Mr. Colerick asked witness if he had not told him (Colerick) that he had searched the chicken yard and that he had spoken to Mr. Dunn about it that morning, witness said he had searched a raspberry patch.

Mr. Colerick drew a diagram representing the Dunn premises and submitted it to the witness, who then indicated where he had made his search.

THE VIEW OF THE BARN.

Thomas Swank called; was called as witness by the state a few days ago; know where Dunn's horse barn is located; know where defendant lives at Wallen; there is a back door to woodshed. If one stood twenty feet west of woodshed one could see but one door on east side of Dunn's barn; that would be top door; could not from this point see any of the doors that enter barn from ground. Witness had made the effort last night and this morning. Doors are the same as there last summer. Can't see the doors by moving twenty feet north. Made the experiment to see whether I could or not; made the experiment by request.

Cross-examined, witness said he made the examination last evening between 5 and 6 o'clock; stood on porch; stood on sill of door. From doorsill could see the middle and south doors of barn; could see them from first step. From corner of porch on the level could see through picket fence. Was there this morning, saw from the porch a man standing in middle barn door in his shirt sleeves; on steps a little distance away could see man in doorway with hands uplifted.

On level could see him through the pickets.

To Mr. Colerick's question witness said he could see doors while standing about eight feet from the house. Willow tree denuded of leaves was between witness when twenty feet northwest, obstructed view of south and middle doors.

Witness said to Judge Hench that he believed Walter Haire had gone into garden this morning; there were several of us there.

Mrs. Julia A. Dunten, of Huntertown, was called: lived there in July, 1901; husband and I run a grocery and restaurant; sell ice cream. Met Marie Sampleson once; know Edna Cothrell. They were at our ice cream parlor Saturday evening, July 6.

HAD HEARD TESTIMONY.

Judge Hench interrupted to ask witness if she had not sat in court room and heard evidence; witness said she had done so one day.

Continuing, Mrs. Dunten said Edna had been at Huntertown before Saturday evening; but not Marie. They were there Saturday evening together. Young man called and asked for the girls. Edna Cothrell worked at my house in September three weeks; think she came about September 6.

Mr. Colerick paused in his questioning to ask that Edna Cothrell be called, and Mrs. Dunten left the stand to make way for her. Miss Cothrell said she was not at Dunn's house July 2 between time she went in morning with mother to get water and time she inquired for Alice at 6:30 o'clock.

There was objection on the part of the state to the questioning, on the ground that it was foreign to the point under immediate consideration. Mr. Colerick said he was offering the question as a part of the original defense. The answer was allowed to remain.

EDNA COTHRELL CALLED.

Witness said she was at Mrs. Dunten's in Huntertown in September; worked two weeks. Asked if while working for Mrs. Dunten she had told Mrs. Dunten that she said on the road home from Huntertown July 6 that she had said to Del Reed: "I'm going to get papa to search Dunn's cistern tomorrow;" and if Marie had said to her, "D——n your soul; if you say that again I'll choke you to death; I don't like you anyhow; and I'd just as leave kill you as not?" Edna replied "No."

Mrs. Dunten was recalled and said while Edna was at her home in September Edna had told her of the conversation on the way home; Edna had said Marie had told her if she said that again she would slap her face.

DETECTIVE MAHAN CALLED.

Questioned by Mr. Emrick witness said Detective Mahan had called at their place several times; he came to Huntertown a few weeks after girl was missing; was last there just before trial commenced. Never talked to me about the case.

Had a hired girl named Pearl Brown, of LaOtto, before Edna Cothrell came; has not worked there since last winter. Nobody suggested that I hire Edna Cothrell; we heard she wanted a place and I went to see her.

Know Paul G. Dunten, said witness in response to Mr. Colerick's question; he is witness' father-in-law. Never saw others there about the Dunn case. Mahan did not say anything about hiring Edna. She had been gone from our place before officers came.

HAD LONG KNOWN DUNN.

R. L. Romy was the next witness called by defense; real estate man; formerly a farmer; was justice of the peace in Washington township; have known Dunn twenty years; am acquainted about Wallen and Perry township; Dunn's reputation for humanity and kindness was good.

By Mr. Emrick—Witness had read in newspaper since Dunn's arrest of suspicion that he had caused death of certain girls by attempting criminal operation; have not been at Wallen for ten years; don't know what people in that town say about Dunn; did not remember that Poinsett had died from injuries received by being driven over by Dunn; had not heard that police were called in to protect Dunn's wife from assault by him; had no knowledge of charges against Dunn in Noble county; know Dunn's neighbors on Spy Run avenue; did not know that Weissel girl worked for Dunn until short time before her death.

Questioned by Mr. Morris, witness said he never knew anything against Dunn.

Alfred Swift called; farmer near Robison park; lived in this county sixty years; have known Dunn for thirty years. As to his general reputation for kindness and humanity prior to the time of his arrest, witness said he was not acquainted with it.

DUNN'S REPUTATION GOOD.

O. B. Wiley was sworn; formerly county surveyor; in surveying for twenty-five years; at present superintending bridges. Had known Dunn for twenty or twenty-five years; his reputation for humanity and peaceableness is good.

Cross-examined by Mr. Emrick, witness said he understood Dunn had lived at Wallen; prior to his arrest he supposed Dunn lived on Spy Run avenue; was at Wallen in spring; did not stop there.

Alfred Swift, recalled, was asked by Mr. Colerick if he knew Dunn's reputation over the county for kindness and humanity. State entered objection, but was overruled. Witness said he did not know anything about it in recent years; did not know how it was five years ago.

Rose Cotterman called; was witness called by state a few days ago. Witness said she went to a point twenty feet south of Dunn's porch to see if she could see doors of Dunn's barn; could see the top of the doors from this point.

Could not see doors from point twenty feet northwest; could not see them from point twenty feet north.

OFFICERS WERE THERE.

Replying to Judge Hench, Mrs. Cotterman said she made the examination last night; think sky was cloudy. Witness pointed out Detective Mahan as man who stood beside her and pointed out fact that she could not see doors. Could see south and middel door from porch; could see man in doors from position near the clothesline. This was this morning; daylight. Detective was not there. Man in door this morning stood with his hands uplifted; was not down twenty feet from porch this morning.

To Mr. Morris, witness said last night she stood twenty feet from woodshed and could not see doors; then from twenty feet south could not see doors.

Point at clothesline where doors could be seen was about eight feet north of house. This morning Mr. Ryan and Mr. Stout were there; we took clothesline and held it in position.

Bayless Swift was sworn: live in Fort Wayne; know Charles Dunn; knew his general reputation for humanity and kindness prior to arrest. It was good.

Cross-examined by Mr. Emrick, witness did not know Dunn was living at Wallen at time of his arrest; he had previously lived on Spy Run avenue. Did not know Weissel girl worked for him there; did not hear of reported criminal operation on Weissel girl; did not go to Wallen much; occasionally met Dunn on streets.

Witness had not heard anything with reference to Dunn's treatment of his invalid wife. All he knew was from his own observations.

Defendant's counsel now offered to prove by witness that he (Swift) had been at Dunn's house several times and knew from personal knowledge that Dunn's treatment of his wife was kind.

Witness was permitted to answer and said so far as he had ever seen Dunn's treatment of his wife had been kind and considerate.

Witness said it must have been eight or ten years ago that he was at Dunn's house.

At this point court adjourned for the noon recess.

MR. RANDALL TESTIFIES.

Perry A. Randall was the first witness called at the opening of court this afternoon; lawyer and interests in farm and city property and saw mill; pretty generally acquainted over the county. Have known Charles Dunn about forty years—first in Noble county when I was a boy. Have done more or less business with Mr. Dunn for twenty-five years; have been at his house frequently; reputation for humanity and kindness was good.

Court sustained state's objection to the inquiry regarding witness knowledge of Dunn's treatment of his wife.

Cross-examined by Mr. Emrick, witness said he had seen Archie Mahan, the detective; am not interested in the outcome of the case more than any other citizen; think I told him of one witness.

Ludwig Welshaimer was the next witness called; have lived in Allen county forty-eight years; fairly well acquainted over county; made a campaign for office some years ago. I have known Dunn for twenty or twenty-five years; part of the time he was my neighbor; his reputation for kindliness and humanity is good.

Cross-examined by Mr. Emrick, witness said he lived in Lake township; have not been in Wallen for four or five years; have not talked with people there during that time. Lived at Churubusco two and one-half years; don't know about his reputation during that time. Lived a neighbor to him possibly twenty years.

CALLED MARIE SAMPLESON.

John Miller, of Kendallville, a brother of Mrs. Dunn, was among the spectators at the trial today and occupied a seat near the accused man.

There was a recess while attorneys for defense held a consultation, and upon the resumption of the case Marie Sampleson was called to the witness stand.

Witness said she did not know John T. Dougall, of the Fort Wayne News. Asked if, on the day of the coroner's inquest she were present, witness answered "yes," and said she was on the corridor of the court house.

Asked if she had, before the inquest, Mr. Dougall had called her aside and inquired as to what she knew, and regarding hearing screams, and that she had told him she heard screams, and that they came from the Haire children in front of the house, witness said she did not know.

DUNN IS CALLED.

Charles W. Dunn was called and stepped briskly to the stand. He answered Mr. Morris' questions distinctly.

My full name is Charles W. Dunn; born in Lagrange county, April 27, 1840; was about twelve years old when I moved to Kendallville. Had a common school education; went one term when nearly a man grown at Kendallville.

Did not learn a trade; drove a truck for seven years and three months; then farmed for about two years. Was married at twenty-one years old; married while I was driving dray at Kendallville. Lived at Brimfield, then at Elkhart in dray business. When I quit trucking at Kendallville went to farming; after two or three years returned to trucking; then in livery business. Was in sawlog business; then ran a billiard saloon at Brimfield and Albion.

Came to Allen county in 1871 or 1872. Till 1876 was in wood business. Went to Wallen the last time February 19; had lived west of there three miles on Goshen road before. Wife I married at twenty-one is still living.

Wife has been an invalid—out of health for over thirty years. Have one son, William.

July 2, 1901, I arose about 4 o'clock; did the general morning work; seeing about the house, milking, etc. Had breakfast about 5 or

WE DO NOT SPEND MUCH TIME OR MONEY ADVERTISING TRUNKS. THE BEST TRUNK ADVERTISEMENTS THAT WE HAVE ARE THE TRUNKS WE SELL. OUR BUYER HAS HIS OWN IDEAS ABOUT HOW A TRUNK SHOULD BE MADE, AND NEARLY ALL OF OUR TRUNKS ARE MADE "SPECIAL" FOR US. HE SAYS THAT A TRUNK SHOULD BE MADE LIKE THE "DEACON'S ONE HORSE SHAY." "THE WAY TO MAKE 'EM' IS JEST TO MAKE THE WEAKEST PART UZ STRONG UZ THE REST." YOU WILL FIND TRUNKS AT OTHER STORES WITH HEAVY BOLTS IN FRONT AND A COUPLE LITTLE LIGHT HINGES ON THE BACK. HEAVY CORNER BOLTS ON TOP AND NO PROTECTION AT ALL ON THE BOTTOM, ETC. THE "BAGGAGE SMASHER" DOES NOT LOOK TO SEE WHICH SIDE OF THE TRUNK IS THE STRONGEST AND THEN DROP IT ON THE STRONG SIDE. HE ACTS AS THOUGH HE TOOK IT FOR GRANTED THAT ALL TRUNKS COME FROM PATTERSON'S AND ARE REGULAR "HERCULEANS" FOR STRENGTH. OUR TRUNKS ARE RIGHT INSIDE AND OUTSIDE, BOTTOM SIDE AND TOP SIDE, AND WE TRY TO HAVE THE STRONG PART AS STRONG AS IT CAN BE AND THE WEAKEST PART "UZ STRONG AS THE REST."

NOT A CASE OF HAZING.

Editor of The Sentinel—A statement was made in several daily papers of this city to the effect that Paul Weber, a student of Concordia college, was seriously hurt in a case of hazing. This statement is based on a misleading report and is entirely erroneous. While playing with several boys the lad jumped from a window twice, and in his second attempt fell on his left hand, cutting it with several pieces of glass. We beg that the suspicion of rowdyism be taken from the institution.

Yours very truly,
Paul Kretzmann,
For the Class of '02.

Mrs. Porter Leach and little son, of Detroit, are the guests of Mr. and Mrs. William Hahn, of West Berry street.

A DAILY NUISANCE.

A Simple Remedy Which Will Interest Catarrh Sufferers.

In its earlier stages catarrh is more of a nuisance than a menace to the general health, but sooner or later, the disease extends to the throat, bronchial tubes and even to the stomach and intestines.

Catarrh is essentially a disease of the mucous membrane, the local symptoms being a profuse discharge

of mucous, stoppage of the nostrils, irritation in throat, causing coughing, sneezing, gagging and frequent clearings of the throat and head.

The usual treatment by local douches, snuffs, salves, etc., often gives temporary relief, but anything like a cure can only be obtained by a treatment which removes the catarrhal taint from the blood and the disappearance of the inflammation from the mucous surfaces.

A new remedy which meets these requirements and which so far has been remarkably successful in curing catarrh, is Stuart's Catarrh Tablets.

These tablets act upon the blood and mucous membranes only. They can hardly be called a secret patent medicine as they are composed of such valuable remedies as Sanguinaria, Hydrastin, Eucalyptol and similar cleansing antiseptics which cure by eliminating from the blood and mucous surfaces the catarrhal poison.

Stuart's Catarrh Tablets are large, pleasant tasting lozenges taken internally, allowing them to dissolve slowly in the mouth, in this way they reach the throat, fauces and the entire alimentary canal.

If desired, they may also be dissolved in water and used as a douche, in addition to the internal use, but it is not at all necessary to use a douche; a few of them dissolved in the mouth daily will be sufficient. However, when there is much stoppage of the nose, a douche made from these tablets will give immediate relief, but the regular daily use internally of these tablets will cure the whole catarrhal trouble without resorting to the inconvenience of the douche.

Dr. Bement states "that the internal treatment for catarrh is rapidly taking the place of the old plan of douching, and local application, and further says that probably the best and certainly the safest remedy at present on the market is Stuart's Catarrh Tablets, as no secret is made of their composition and all the really efficient remedies for catarrh are contained in this tablet."

Druggists sell Stuart's Catarrh Tablets at fifty cents for full sized packages. Ask your druggist and if he is honest he will tell you there is no safer, more palatable, more efficient and convenient remedy on the market.

It is a conspicuous fact that the anarchist leaders all over the world who profess to be propagandizing for the working classes do not themselves do any work.

Since Mr. Ernest Seton-Thompson has been made over by the courts into Mr. Ernest Thompson-Seton, it is natural to wonder if the "animals I have known" will know him.

The kansas farmer who named his baby Leon Czolgosz would doubtless be a more proper subject for a lunacy commission than an object of the wrath of his indignant neighbors, who, however, are not much to be blamed for driving him from among them.

Malvar, the only great Filipino chieftain who has not surrendered, has constituted himself the whole thing and is attempting to reorganize the insurgent armies. No less for his own good than for the welfare of the Philippines, one Gen. Fred Funston should be at once commissioned to go forth to show Malvar the way into town.

We doubt not that in many respects President Roosevelt's forthcoming annual message will be a model and a refreshing departure from compositions of the sort by other presidents. At the same time we believe the message is being touted too loudly too far in advance. Public expectation is getting mighty high and may be difficult to reach, even by President Roosevelt.

The brave are always generous, and if anything could exceed Admiral Schley's bravery it is his generosity. He does not now and never has sought to claim more than a modest share of credit for the victory at Santiago, though the country has believed him entitled to the glory of a victorious commander-in-chief. He has steadfastly declared there was glory enough for all, and we agree with him—glory for all, including Admiral Sampson, in whatever measure he is entitled to glory for victory in a battle in which he bore no part.

In the official list of receptions at the white house during the coming winter no provision is made for a reception to the public. This discontinuance of the time-honored custom of the president receiving the public once a year is said to be directly due to the Buffalo tragedy. Taken in connection with the omission of handshaking at the Yale receptions, it is believed to mean the abolition of what is now regarded as an unnecessary and dangerous custom—the personal greeting by the president of all who can come within reach of his hand. Beyond the satisfaction of an insane desire there is no reason why the public should insist upon the perpetuation of such a ridiculous custom. Not only does it expose the president to needless danger, but the effort causes discomfort to thousands and to the president himself physical weariness of a peculiarly painful character. Whether due to President Roosevelt personally or to the anxiety of his advisers, the elimination of the handshaking nuisance is to be welcomed as a much-needed reform.

CALLS BABY LEON CZOLGOSZ.

Topeka, Kan., Oct. 31.—At Centropolis, a small town in Franklin county, M. Bernheimer, a farmer, named his infant son Leon Czolgosz and was driven from the county yesterday by indignant citizens. Bernheimer sought a priest yesterday and asked him to christen his son. When the point in the ceremonies for the name to be given was reached the priest indignantly refused to christen an infant with such a name, and administered a stinging rebuke to the parents.

Jones—Say, Smith, you look sick. What are you taking?

Smith—I am taking candy tablets, slightly medicated; they taste good and I can dissolve them in my mouth.

Jones—Yes, you look like it! When I was in your condition, suffering from dyspepsia, my physician recommended Peptorene, the Health Tablet, made at Battle Creek, Mich., and just look at me now. I can eat anything that I like. I have found Peptorene, the Health Tablet, the best remedy that I have ever tried for indigestion, constipation, sour stomach, headache and all other troubles arising from a disordered stomach. THE NURSE IS ARRESTED

SUSPECTED OF THE MURDER OF FOUR PERSONS.

Mysterious Death in Massachusetts of Those Whom Miss Jane Toppan Attended.

Barnestable, Mass., Oct. 31.—Miss Jane Toppan, who was arrested yesterday at Amherst, N. H., on suspicion of being connected with the alleged murder of Mrs. Mary Gibbs at Cataumet, was brought here yesterday afternoon. She was taken to the local jail and was arraigned this morning.

Miss Toppan was held without bail for further hearing on November 8 in the First Barnstable district court. The prisoner pleaded not guilty. Miss Toppan seemed very weak and nervous in court.

Mrs. Gibbs' husband, Capt. Irving Gibbs, who is captain of the coasting schooner, Golden Ball, was away on that vessel at the time of his wife's death. On learning of it, at a coast port, he immediately returned home, and although there had been up to that time no suspicion of foul play, Captain Gibbs believed that there should be an investigation and placed the matter in the hands of District Attorney Holmes.

The bodies of Mrs. Gordon and Mrs. Gibbs were exhumed and the stomachs were sent to Professor Wood, of Harvard university, and as a result of his examination Miss Toppan was arrested on suspicion of having poisoned the four members of the Gibbs family, having attended them as a nurse. The police assert that they have sufficient evidence to convict Miss Toppan, although they will not disclose any of it.

HELEN M. GOULD ACCEPTS.

New York, Oct. 31.—Miss Helen M. Gould last night announced that she had accepted the position of vice president of the McKinley Memorial association. "I shall," said Miss Gould, "gladly serve on the committee and accept the office and do all I can to help build the monument to the memory of the late President McKinley. It is a worthy undertaking and I am heartily in favor of it."

Miss Gould also said that she had accepted the invitation to be a member of the board of women managers of the Louisiana purchase exposition of 1903.

DUTCH MAY AID THE BOERS.

The Hague, Oct. 31.—During a discussion of foreign questions in the bureau of the second chamber of the states general yesterday the report of the Dutch Red Cross society, regarding the capture of the Dutch ambulance corps near Pretoria in the summer of last year and the general conduct of the South African war, formed the subjects of numerous questions addressed to the government. Several members urged the government to seek an agreement with Germany with a view of bringing pressure upon Great Britain to submit the whole question to arbitration.

FAVOR MUNICIPAL LINES

SOCIALIST PARTY DESIRES CITY TO OWN THEM.

Wants the City to Prepare to Do All of Fort Wayne's Street Car Business.

The following statement relating to the present interurban railway matters has been adopted by the central branch of the socialist party in this city:

"The interurban railways now clamering for admission into our city should be encouraged by every individual believing in progress. No opportunities should be lost that will add to the comforts of society and the avenues of transportation and travel. Our city has developed into an important center of distribution due to the push, energy and activity of its inhabitants, and its geographical location, therefore it would be beneficial to the surrounding towns lying around us, even more than it would to our own city to have interurban railways. The members of the central branch socialist party favor and encourage these means of transportation, and consequently wish to go on record as to the manner those enterprises should enter our city. We claim it to be an undisputable fact that in the end society pays all the bills.

"Therefore we hold that the cost of construction of interurban railways is paid by society.

"The people that ride on the cars and the freight sent over these lines pays for all the grading, ties, rails, poles, wire, cars and power stations of such lines. This being true, the question arises 'If the people pay all these bills,' why not own at least that portion which is within the city limits?

"We are utterly opposed to giving away any franchises unless the tracks within the city limits shall belong to the people of our city, and shall forever be the property of the city, with the right to charge any amount it sees fit to the company using said tracks.

"If Harrison street will be utilized for that purpose our council should aim not only to have interurban lines use that street, but the city should extend its lines into all parts of our city and prepare to do our own street car business, and have the profits which are made annually by our present company remain here in our city instead of going to a few capitalists in Cleveland. The people that ride on our cars pay all the wages of the conductors and motormen and others employed by the company; not only that, these nickles pay for all the repairs and taxes and all other expenses necessary to operate such lines, then why not prepare to own them.

"Municipal ownership of street railways is the order of the day in all communities and we can not afford to remain dormant upon questions of such great importance to the people.

"Adopted by central branch socialist party, October 29, 1901.

"Fred Rolf,
"Secretary."

FELL FROM THE TOWER.

Seymour Heisner, of 172 Greene street, a lad about 18 years old, was painfully injured while climbing the electric light tower at Holton and Creighton avenues. When about thirty feet from the ground the boy stepped on a live wire, and the shock caused him to fall to the ground. He was unconscious when picked up and an examination of his injuries showed that his foot and leg had been badly burned and that he had been severely shaken up. No bones were broken.

AFTER DISHONEST CLERKS.

Two or three of the big dry goods houses have employed detectives to keep an eye on clerks suspected of being dishonest, and in the past few days several employes have been discharged for stealing. Some indignation exists among the employes of these stores, as it is claimed by them that the discharges are for infractions of the rules instead of for stealing, and that the reputations of several clerks have been ruined on account of misinformation.

BIG PEDRO PARTY.

The Catholic Benevolent League of Indiana gave a big progressive pedro party in Saengerbund hall last evening, there being over 100 tables and about 425 guests. All the branches of the league in the city united in giving the party, and a large crowd was down from Garrett for the games. The games began at 8:15 and were called at 11 o'clock. Forty-three prizes were given, the two $10 gold pieces being won by Paul Bobay and Otto Schirmeyer. Others who won prizes were: Messrs. Louis Treuchet, J. Harkenrider, Peter Baltes, H. A. Plumadore, Dr. J. L. Smith, Hugo Blombach, George Fry, Robert Schmall, Henry Arens, Peter Sorg, Joseph Getz, J. G. Noll, B. Hankins, Michael Rogers, J. B. Bleasing, F. Webber, E. W. Stout, B. Mittendorf, William Goodfellow, Clem App, John C. Belot, William J. Harkenrider, O. F. Strodel.

IS CHIEF OF THE ROMANIES

KING STANLEY PAYS VISIT TO MAYOR BERGHOFF.

Has Set Up His Court Near Lindenwood Cemetery—The Monarch Talks of His People.

King Stanley, the acknowledged chief of the genuine "Romany Rye" Hungarian gypsies of the United States, is camped with his band south of Lindenwood cemetery, between the railroad and the cemetery property. Wednesday King Stanley came to the city and presented himself to Mayor Berghoff. He said that he came to report the presence of himself and followers, of whom there are about fifty; to assure the authorities that all of his party are law-abiding and honest; that he permits no questionable practices, and that he wanted to be held personally responsible for any unlawful act committed by any of his band. He finished the interview by inviting the mayor to take dinner with him on Sunday, which invitation was accepted. King Stanley is an interesting character, and to The Sentinel spoke freely of his life and his people. As is well known, the genuine gypsy headquarters are near Dayton, Ohio, where the king has a noble estate, a legacy from Queen Stanley, who died about four years ago. The king is a robust, heavy-set man, swarthy as to complexion, and decorated with a heavy mustache and sidewhiskers a la Burnside. He confesses to fifty-eight years of age. He dresses like a well-to-farmer, and in order to make his pants set well he weights his pockets with $20 gold pieces, of which he always carries enough to prevent any bagging at the knees. In this repect he is very similar to newspaper reporters. He speaks with a strong accent, but uses good English in a general way. "I was born in Hungary," said he to The Sentinel, "in a gypsy camp, as was my father before me. I have been king of the American gypsies for nearly four years and never had any trouble. The Romanies never have trouble. You go yourself some day and lose your job on the newspaper and then you get a covered wagon and some friends and horses, and you go out on the road and say you are gypsies, but you are not; you are just loafers, and you don't care who you have with you, and you travel through the country and trade horses, and sometimes steal, and then everybody says, 'Gypsies are near; they are bad! Lock up your cellars; gypsies are here!' It is not so. English gypsies! Pooh! (this in a tone of unutterable contempt). English thieves, that's all. My people are all like one family, and we don't steal and don't trade horses—not often. My women go to town and tell fortunes and sometimes sell little trinkets which they make. That's honest, ain't it? I buy and sell horses—never trade. If I see a horse that I want I buy him as cheap as I can; that's my business. If a man wants a horse that I have got I sell him for as much as I can get; that's the other fellow's business. When I get to a big town I go and see the mayor and policeman and tell him that I am here and that my people will be in town. I tell him we are honest and that if he can find a dishonest one in my party I'll give him a thousand dollars. And I am willing to deposit the money with the mayor, too; not all mayors, but some; some wouldn't give it back. Mayor Berghoff would. Anyway, I tell them not to bother my people; that I will be responsible for anything, and I guess I am worth it. It ain't gypsies that steal; its some other people. Yesterday my daughter took off her neck chain and laid it down in the corner of the tent while she went to wash her face; when she looked for the chain it was gone. It was made of German mark pieces, twenty franc pieces and American five dollar pieces—just sixty-four dollars in gold money in it. It's gone. Who took it? I don't know, but not gypsies—well, what's the use. Come and see me; I'll treat you well."

The king said he would remain about a week, when he would break camp and go to Cleveland for a couple of weeks, and would then go back home to Dayton. He has a voice like a bass singing pirate, is apparently jolly all the while, spends his money like a real king, appears honest and conscientious, and altogether is not a bad fellow to meet.

While dressing timber for side braces for the South Wayne sewer yesterday George Heisler, of Madison street, received a bad gash in the foot from a glancing adz. He was removed to Dr. McKeeman's office, where the cut, which is situated just below the ankle, was stitched up. The wound is a dangerous one on account of the severing of several of the muscles of the foot.

Heart Disease

retards the circulation, weakens the stomach, deranges digestion, pollutes the blood, destroys the nervous force and saps the vitality of the whole system. It causes pains in the side, palpitation, shortness of breath, smothering, dropsical swellings, sinking spells, and frequently ends all suffering in sudden death. Why tempt death when a cure is within easy reach?

"My head would get so hot it seemed to be burning up, while my feet were like ice. My limbs would swell and get numb. I had to sit in a chair day and night for months and my heart throbbed and pained me terribly. After using three bottles of Dr. Miles' Heart Cure I could do a good days work."
J. M. MACLAY, Shippensburg, Pa.

Dr. Miles' Heart Cure

never fails to relieve, and few cases are too severe for it to cure. Sold by druggists on guarantee.

WAS LOVING HIM

WHEN PISTOL WENT OFF AND MADE HER A WIDOW.

A HOBOKEN WOMAN'S STORY

HELD ON SUSPICION OF MURDERING HUSBAND.

HAD WEAPON IN HER HAND

WHEN SHE HUGGED HIM GOOD BYE AND IT EXPLODED.

New York, Oct. 31.—John Chartrand, manager of a skating rink at Hoboken, N. J., is dead from the effects of a pistol wound on the head and his wife is under arrest pending investigation. Mrs. Chartrand's story is that her husband had been unable to rent an apartment for their accommodation of late and for that reason she went to live with her mother. She visited her husband at the rink last night and remained with him all night. She says that when she was about to leave the rink this morning her husband took out a revolver and offered it to her.

Chartrand had arranged, she says, to go on a hunting trip to Toms river, to be gone ten days and Mrs. Chartrand was to have taken care of the rink during his absence. He gave her the revolver, she says, to protect herself during her stay at the rink.

Mrs. Chartrand says she put her arms around her husband's neck to kiss him good-bye and that the revolver in some way was discharged. The bullet entered Chartrand's head behind the left ear and he died before he could be taken to a hospital.

THE NEWS OF THE POLICE

An eleven-year-old lad answering to the name of John Handschliegel was in police court this morning. The lad was a truant from school and after being roundly lectured by Judge Louttit and withered by a terrific arraignment by Foundmaster John Tremmel, the lad was taken to St. Mary's school by the latter.

Two bicycles and two rosaries constituted the find of the police last night. All the missing articles can be identified at the police station.

Continued complaints concerning mischievous boys come to the police station. This morning Lieutenant Lapp was sent out on a lecturing tour with nearly a dozen names on his list. Superintendent Gorsline says the boys are growing unusually troublesome and he is afraid he will be obliged to resort to drastic measures to keep them in check and in line.

ABOUT THE COURT HOUSE.

The will of the late William Wadge was filed today for probate. His grandchildren, W. H. W. and Laura Peltier, and an adopted daughter of his son, Richard Wadge, are named as the principal beneficiaries, and the two grandchildren are named as executors of the will. What portion of his estate is not specifically devised, he directs to be used in the erection of a monument to himself in Lindenwood cemetery.

W. W. Rockhill, treasurer of the board of school trustees, has filed his new bond with County Auditor Ortleib, and is in the sum of $130,000. The bond is to cover the additional responsibility of the custody of $125,000 of the funds to be realized by the bond issue for the erection of the new training school building. The sureties are W. E. Mossman, Charles A. Wilding, G. W. Pixley and W. J. Vesey.

The damage suit of Meyer vs. Beverforden continues to hold the attention of the superior court and jury.

Gottlieb Haller has filed a petition as the surviving partner of the firm of Winch & Haller, asking for the appointment of appraisers.

Elizabeth Axt has been appointed and has qualified as administratrix of the estate of the late August Axt.

IN JUSTICES' COURTS.

The "Greeley street chicken fight" reached an acute stage this morning when the taking of testimony was commenced in Huser's court. After several hours of examination the paternity of the chicks still remained a matter of doubt. Accordingly the taking of testimony was continued until tomorrow afternoon.

Justice France acquitted John Cox and fined Charles Riley $1 and costs for trespass. The charge was filed by Michael Dunahay, of Scottenfield street.

A number of friends surprised Mrs. Stephan yesterday at the home of her daughter, Mrs. Andrew Jacobs, of 42 Stophlet street, in honor of her eighty-second birthday anniversary.

DUNN TAKES STAND

(Continued From Second Page.)

5:30 o'clock. After breakfast I drew water from cistern for washing; then split wood. Later I went to George Hand's timber, five miles from where I live.

STATE'S LAST WITNESS.

Edna Ellen Cothrell, sister of the dead girl, was the last witness presented by the state in closing Wednesday afternoon. Her testimony, briefly summarized in The Sentinel last evening, is here given in more detail:

Am 15 years of age; daughter of Edward Cothrell; have lived at Wallen since March; previous to that resided in Fort Wayne. There are five children now living in father's family—I am the eldest; brother George is next, age 13; Alice was next, 10; Albert next, 10; Ida is younger. Alice was missed July 2.

Have known Charles Dunn ever since we moved to Wallen. Witness said that she arose July 2 about 6 o'clock, and continued: Mother and I went to Dunn's that morning to get rainwater to use in washing; that was about 7:30 o'clock; Dunn helped us get it from the cistern. Witness said she was not back at Dunn's that forenoon; was at home at noon and had lunch there; all of the family were present except father. We had radishes, onions, bread and butter and lemonade for lunch.

Witness said she was at home during afternoon helping mother with the washing; got through about 4 o'clock. Did not go to Dunn's that afternoon before supper, but went there about 6:30 that evening. Saw Dunn and Marie sitting at supper table; Mrs. Dunn was in sitting room. I told them Alice was not at home, and asked them to help me hunt her.

DUNN STOPPED HER.

Dunn said he would, and then he started to go upstairs. I started to follow him, and he stopped me at the first stair; said he would search upstairs. He came back soon and said she was not upstairs. He next went out to milk the cow, and I followed to the yard. After milking he took the milk to the house and I waited in the alley. He came back and went into the horse barn. I went to the mill. When I saw him next he was coming out of the horse barn; he had been in there about twenty minutes. I was at the mill with Mr. and Mrs. Mains and Rose searching the cistern. Then we went along the alley to our place; then up around the schoolhouse and next down the railroad track south. It was after 11 o'clock when I returned from the search; Rose Mains took me home; mother was there; father had gone to Fort Wayne.

SAID HE HAD SEARCHED.

Thursday I was at Dunn's; asked him if he had searched the cistern in the house. He said he had not. Next day I asked him again if he had searched the cistern; he said yes, and that there was nothing in there. Asked if she and Alice had had a quarrel at dinner Tuesday, witness said Alice was drinking from a tumbler that she was afraid she would break and witness told her to put it down; witness said she gave Alice a shove, but did not strike her or thump her. Did not tell Dunn at any time during the week that I had thumped my sister. I was not at his house Tuesday when he was eating dinner.

On the cross-examination by Mr. Colerick, witness said about two hours were consumed in the search Tuesday evening up to the time they left the barnyard. Witness talked with Marie while Dunn was upstairs; did not talk to her again that evening. Witness repeated her previous testimony regarding Dunn's assertion that he had searched the cistern.

We ate supper that night about 6 o'clock; Alice had not been missed before that, and so far as witness knew no previous inquiry had been made for her. Was not alarmed until she failed to appear for supper. Witness went to Dunn's to inquire because Ida (her sister) had said Alice had gone there. Dunn told me Alice was not there.

SOME STOUT DENIALS.

Witness said she had not walked up to Marie and said: "Marie, you know where my sister is;" did not ask Marie at any time why she did not search the cistern. Marie did not say to witness: "D—n you, if you say that again, I'll choke you." Witness stoutly repudiated a statement alleged to have been made to her by Marie on the road home from Huntertown wherein Marie threatened her; denied also that any similar threats had been made by Marie at the ice cream parlor at Huntertown. Witness said she rode from Huntertown with Del Reed and Marie, but denied attempting to get out of the buggy, and said also that she had not asked to be let out of the buggy.

It was at this juncture that Prosecutor Emrick arose and briefly announced to the court that the state rested its case. After a brief recess, Judge O'Rourke announced the adjournment of court until 9 o'clock this morning, admonishing the jurors that no conclusion must be formed until the evidence for the defense had been heard, the arguments made and the instruction of the court given.

A total of eight days had been consumed thus far in the hearing of the case; two in the selection of a jury, and six in the presentation of the state's evidence. Some idea of the mass of testimony submitted may be gained from the fact that at the close of the state's case Court Stenographer Underwood's report of the proceedings covered a total of 1,181 pages of shorthand.

ONE CARDINAL IS THE LIMIT.

Washington, Oct. 31.—Inofficial advices received from Rome confirm the understanding that no papal consistory will be held before next February. In view of this fact Cardinal Martinelli, the papal ablegate, will leave this country just before the meeting in Rome of the consistory, which will confer the red hat upon him. While there may be some additions to the roll of cardinals, it is certain that none of these will be from the United States. The real reason for avoiding the naming of another cardinal for this country during Cardinal Gibbons' life-time is to avoid setting a precedent for two cardinals within the United States. There are more than one, however, in countries where there is a concordat between the government and the church. There is no indication yet as to who will be Cardinal Martinelli's successor.

A DRASTIC FOOD LAW.

New York, Oct. 31.—What is said to be the strictest pure food law will go into effect in New Jersey tomorrow. Its enforcement has been intrusted to the New Jersey state bishops. Under it the office of state dairy commissioner is abolished and his duties will come under those of the chief food inspector. There will be a large number of deputies scattered all over the state. Everything that can come into use for human consumption as food or drink is included under the law. The inspection will even take in canned goods. It does not matter whether they or anything else is manufactured or put up outside of the state or not, they are liable to come under the ban of the law if the analysis to be made from time to time shows them to be unfit for human food.

LOCAL LINES.

The members of the Pan-American Pedro club enjoyed a hallowe'en party at the home of Mr. and Mrs. James Young last evening. The house was prettily decorated with vines and chrysanthemums. First prizes were awarded to J. Bohne and Mrs. Fix, while the consolations were given Mrs. Will Hammett and Charles McElfatrick. An elaborate supper was served after the games.

Miss Dora May Dobbins, of Ada, O., is the guest of her aunt, Mrs. Grey, of 247 East Wayne street.

"The Philosophy of Power; an Answer to Nietzsche," will be the subject of Rabbi Frederick Cohn's address at the Jewish temple Friday evening.

Miss Kate Fox, of the Wolf & Dessauer dry goods house, is convalescing from an illness of four weeks duration.

The Misses Kathryn Gaffney and Anna Miller entertained very pleasantly last evening at the home of Mr. and Mrs. H. Whiteman. Progressive pedro and vocal and instrumental music served to entertain the guests and luncheon was served at a late hour.

ARRESTED FOR MURDER.

Bangor, Me., Oct. 31.—Thomas Gibbons, of Bangor, foreman for a lumbering concern, Fred A. Holt, of Augusta, and Mrs. Gero are under arrest for the alleged murder of Thomas Gero, at Chesuncook, news of which reached here last night.

ENEMY OF CIVILIZATION.

New York, Oct. 31.—A dispatch to the London Times and the New York Times from Berlin says the society for combatting the abuse of spirituous liquors has begun a conference at Breslau. Baron Von Diargart said at the conference he believed that alcohol would one day be universally regarded as an enemy of civilization, but at present it was only possible to recommend moderation in its use. Seven hundred and fifty millions of dollars was yearly spent in Germany on intoxicating liquors. It was estimated that the average German consumed the equivalent of five glasses of spirits a day. Baron Von Diargart added that one difficulty in the campaign was that the state itself was interested in alcohol, deriving as it did a revenue of 41,000,000 from spirits and 25,000,000 from beer. One-third of the German exports to England and one-seventh of those to East Africa consisted of alcohol.

ABOUT THE CITY HALL.

The committee of the whole will meet again tomorrow night to discuss interurban railroads, but more particularly the Southwestern company's franchise to enter the city.

The city officers, firemen, policemen and all regular employes except street and park will be paid tomorrow.

The board of works will meet this evening in regular session. There is nothing of importance before the board and if interurban questions are to be taken up the clerk has not yet been notified.

Councilman E. J. Ehrmann has called the special council committee of which he is chairman to meet at the city hall tomorrow afternoon at 2:30. The committee will meet with the board of works to hear the proposition submitted by R. B. Hanna more fully explained. Mr. Hanna is advocating a general terminal proposition, the proposed improvement to be built by private Fort Wayne capital and eventually to revert absolutely to the city.

A letter addressed to Dr. Samuel F. George, in care of Mayor Berghoff, has been received at the city hall. Dr. George is the president of the Fort Wayne, Dayton and Cincinnati railroad and is expected in the city daily. He was to have been here last week, but was delayed by circumstances connected with the survey on the south end of the line. As the letter is enclosed in an official envelope of the company, it is fair to presume that he will be here within a day.

King Stanley, the gypsy chief, has taken out nine licenses, permitting his followers to tell fortunes in the city.

CELEBRATED AHEAD OF TIME.

Superintendent Gorsline's orders to the effect that the police prevent undue pranks tonight had the effect of inducing a premature Hallowe'en celebration last evening. Few reports of actual damage to property have been received, but there were a great many tricks played. Several gates are reported missing, a few wagons and buggies were borrowed for a few hours, movable articles on lawns and porches were displaced or are missing and the time-honored salute of windows with beans and corn was duly observed.

REV. GROSS COMING HOME.

Rev. C. Gross, pastor of Emanuel Lutheran church, who underwent an operation at St. Louis some weeks ago, will leave the hospital today or tomorrow and expects to return home next week. Rev. Gross is making a good recovery and last Sunday he was able to attend church in the morning, visiting several friends in the afternoon.

The reception that was to be given Friday evening by the ladies of the First Presbyterian Church has been postponed for one week. 31t2

REFORMATION ANNIVERSARY

LUTHERAN CHURCHES CELEBRATE TODAY.

Special Services to Be Held in German Lutheran Churches This Evening.

On October 31, 1517, three hundred years ago today, Martin Luther posted on the gate of Wittenberg college his famous theses denouncing the course pursued by the Roman church in certain matters, and today Lutheran churches in all parts of the world are holding special services in honor of the anniversary of the reformation.

In all the German churches of the city special services will be held this evening and sermons befitting the occasion will be preached. In a few of the churches special musical programs will be rendered, while in St. John's church a musical entertainment by the Luther society will take the place of the regular sermon.

Services will be held in St. Paul's church on Barr street at 8 o'clock this evening, and Rev. H. C. Jaus will preach the sermon.

Prof. L. Dorn, of Concordia college, will officiate at Concordia church at 7:30 o'clock and the Lord's supper will be partaken of. At Emmaus church there will be a special musical service for children. Rev. C. H. Luchr will occupy his pulpit at Zion's church, the services beginning at 7:30. There will be no services at Emmanuel church, nor in the English Lutheran churches.

It is customary to hold services on the Sunday nearest Oct. 31 and special services will be held next Sunday in both German and English Lutheran churches commemorative of the reformation.

ESTABLISHED 1833. FORT WAYNE, IND., THURSDAY; OCT. 31, 1901. PRICE TWO CENTS

DUNN TAKES STAND

White-Haired Man Accused of Alice Cothrell's Death a Witness in His Own Behalf.

DEFENSE IS PROVING CHARACTER

Charles Dunn, accused of the murder of Alice Cothrell on the 2d of last July, took the witness stand in his own defense late this afternoon. It is probable that his examination and cross-examination will consume all of today and part of tomorrow.

Beginning the presentation of the defense's side of the Dunn case at the opening of court this morning, Mr. Colerick in his statement to the court and jury first outlined briefly the law governing such cases, and then set forth in some detail the points which the defense expects to prove in support of its claim that Charles Dunn is innocent. Mr. Colerick spoke with much earnestness, and was at times most eloquent.

The evidence of the morning was for the most part introduced to establish defendant's general reputation for kindness and humanity, and in the cross-examination the state's attorneys went searchingly into witnesses' knowledge of Dunn's life previous to the date of his arrest.

The question as to whether or not Marie Sampleson could have seen the barn doors from the point at which she stood in the yard Tuesday afternoon has evidently been receiving close attention from both the defense and the state, and several witnesses this morning were examined upon this point.

It is evident the defense is expecting very important testimony from its expert witnesses, Dr. Maurice Rosenthal, Dr. G. L. Greenawalt and Dr. W. H. Myers, who will be called to testify tomorrow.

While it is impossible at this time to estimate accurately when the case will be finished, attorneys today were of the opinion that the case would not go to the jury during the present week. The direct evidence will doubtless be completed tomorrow, and it is not now known whether the state will offer any testimony in rebuttal or not. Following this will come the arguments of the counsel, and it is within the province of the court to determine how much time will be given for the addresses to the jury. Then must come the judge's charge to that body, and the attorneys do not believe the case can get to the jury before early in the coming week.

FEWER WOMEN THERE.

The audience present at the opening of the Dunn trial this morning was fully as large as those which have preceded it. All the seats in the spectators' section were occupied, and a heavy overflow stood in the lobby behind, but it was noted that there were fewer women in the audience than have been present for the past two days. Despite this, there was still a good-sized representation of the fair sex, and nearly all had removed their hats. Dunn was brought into court a few moments before 9, and the various attorneys came in soon after. The prisoner seated himself at the attorneys' table, and after speaking for a time with his son, placed his spectacles in position and began examining intently some letters or documents which he drew from his pocket. Then he had a whispered conference with Detective Mahon, calling the latter's attention to some of the papers.

MR. COLERICK OPENS.

Mr. Colerick in outlining the case to the jury, said that the evidence of the state had already been presented, and it was now the desire of the defense to offer evidence in his own behalf.

Mr. Colerick, in setting forth the principles of law, said it was necessary for the state in this case to establish its case by evidence beyond all reasonable doubt. The law only requires that there shall be the same certainty in the case of circumstantial evidence as though it were done by direct evidence; that each link in the chain of circumstances be as strong as the other. Motive must be clearly shown.

In this case the defense will undertake to show to the extent of total annihilation that there never was a motive or a reason for this defendent in the sixty-second year of his age to wantonly take the life of a puny, sickly, ten-year-old babe.

ABSENCE OF MOTIVE.

We will show that no motive rested in the heart of this man to seek the life of that child. We will undertake to show that at no time was this defendant ever attracted to that child. We expect to show by specific as well as by general evidence that this man has lived for many years in this vicinity and has built up a character for gentleness, kindness and charity.

We expect to show that no mark existed indicating the placing of a human hand upon that child.

We expect to show, not by witness who made an examination of the body of the little girl in a dimly lighted room by the aid of a lamp, but by expert medical men who made their examination in broad day light, cut down on the parts, took them away and subjected them to examination under a microscope of a thousand magnifying power—that no force whatever was used upon the little child before her death.

NO EVIDENCE OF IMPURITY.

Mr. Colerick said the defense expected to show by the evidence of physicians that there was no indication of impurity in the organs of the dead girl. We expect to show that in cases of death by drowning the blubbery substance will come from the lungs, as it did in the case of Alice Cothrell, but not in cases of death by strangulation. We expect to produce on this witness stand the man who broke that hyoid bone after the girl was dead; we expect to show just how and when that bone was fractured. We expect to show that the hymen was not broken; that it contained no indention that would result from a started rupture.

State has introduced evidence with reference to statements alleged to have been made by defendant to Marie Sampleson. We will meet those by the only method that can be used when no others were present—by Dunn's denial that he made them; and by the further fact that he has borne for thirty years in this section the reputation of a truthful and an honest man.

Mr. Colerick said they would introduce a witness for the state to prove that on the morning of the day the chicken yard had been searched by several men to whom Dunn called out angrily, defendant had given him permission to search it, and that it had been thoroughly searched previously.

MISS SAMPLESON'S TESTIMONY.

Regarding Marie Sampleson's statement that she was threatened by Dunn, we expect to show that when Marie was brought to the coroner's inquest she was under suspicion herself, and that Dunn's only injunction to her was to be careful what she said. We expect to show that before she went into the coroner's inquest she told a newspaper man that she had heard screams and that they were out in front of Haire's. We expect to show that Marie Sampleson's eyes were the last that ever rested upon the girl alive.

In concluding, Mr. Colerick asked of the jury the same careful attention they had given from the first and a fair, calm consideration of the evidence and the instructions of the court.

THE FIRST WITNESS.

Matthew Ferguson was the first witness called by the defense, and examination was conducted by Mr. Morris. Mr. Ferguson said: Have been township trustee and county commissioner; traveled extensively over the county; first knew Dunn twelve years ago.

State objected to questions tending to show Dunn's general moral character. The point was argued at some length and a number of authorities were cited. Judge O'Rourke ruled that a trait of character might be shown, but he believed it improper to introduce this evidence where no attack had been made on the general moral character.

Witness said Dunn's reputation for kindness and humanity was good.

WILL AWE TURKEY

FRENCH SQUADRON SAILS FOR THE LEVANT.

THE PORTE MUST PAY BILLS

PORT OF SMYRNA LIKELY TO BE SEIZED.

A FRENCH OFFICIAL TALKS

FORCE WILL BE EMPLOYED IF NECESSARY.

Paris, Oct. 31.—The officials of the French office confirm the report that a division of the French Mediterranean fleet, composed of three battleships and two cruisers, under the command of Admiral Caillard, has proceeded from Toulon to the Levant, to make a naval demonstration against Turkey.

A foreign office official, in communicating the foregoing to the correspondent here of the Associated Press, said:

"The squadron sailed with sealed orders, and proceeds first to a Greek port, the Island of Syra, I think, where the admiral will receive definite instructions as to carrying out his sealed orders. I am not at liberty to say what the sealed orders are, but the seizure of the customs at Smyrna would probably be a very effective way of convincing the sultan that France's patience is exhausted and that we have decided to enforce an immediate execution of the Turkish government's engagements. We, however, are very hopeful that the sultan will not compel us to go to that extreme.

"Our squadron will not reach the Greek port before Sunday. The Turkish government has thus still three days' grace, and we trust in the meantime to receive complete satisfaction. We have acted very considerately toward Turkey, hoping, up to the last moment, that she would carry out her engagements, and it is only now, when we find that there is no serious indication of her doing so, that we have reluctantly resolved to put stronger pressure to bear in the shape of a naval demonstration.

"It is now two months since the French ambassador, M. Constans, left Constantinople. His departure failed to produce the desired effect.

"On the contrary, even the quays and tubini questions, which were settled by the sultan's irades, remain unsatisfied.

"The internal situation in the Turkish empire deterred us for some time from taking drastic measures to enforce our demands. But the dignity of France could not permit the present state of affairs to be prolonged indefinitely. We sincerely hope the sultan will fully appreciate the fact that we cannot any longer be trifled with, and relieve us of taking further steps to safeguard our interests."

The official was asked what would happen in the event of the French squadron being ordered to seize the customs and if the Turkish authorities resisted, and he replied:

"That is a very unlikely contingency, but if it occurs, I suppose we shall have to bombard the port. We do not want bloodshed, and I do not believe there will be any occasion for it."

ALSO WANT THEIR PAY.

Constantinople, Oct. 31.—A mutinous demonstration was made in front of the admiralty offices Tuesday by 600 officers and non-commissioned Bashibazouks, which caused dismay among the occupants of the yildiz palace. The pay of those who took part in the demonstration is several months in arrears, and only a promise of prompt settlement prevented the carrying out of threats of further action. The pay of all the troops, with the exception of the marines, is paid with fair regularity, because they furnish the guard at the weekly selamike and discontent among them might result in serious consequences to Sultan Abdul Hamid.

REHEARING PLAN CHECKED.

Indianapolis, Oct. 31.—An attempt to get a rehearing granted in the case of Charles P. Flutter vs. the New York, Chicago and St. Louis Railroad company with the apparent purpose of causing the opinion of the supreme court holding the company liable for Flutter's injuries to be discredited as an authority, resulted in the prompt overruling of the petition for a rehearing yesterday by the supreme court.

The petition has been lost, but the attorneys for both parties filed an application yesterday for a rehearing, stating that the suit had been compromised and that all parties concerned desired a rehearing. The order making the former judgment and opinion absolute followed yesterday. Flutter was injured while working for the company by tripping over some wires used in operating a semaphore that composed a part of the company's block system. The opinion of the supreme court reversing a judgment in favor of the defendant declared the liability of the railroad companies under circumstances which railroad attorneys generally had thought did not create any liability, and if a rehearing had been granted this opinion would not have been printed in the official report of the court's decisions.

Vesey & Heaton were attorneys for plaintiff and Olds & Douglman for the defendant.

SHE SEEMS TO BE DESERTED

BRIDE OF SIX WEEKS LEFT BY HER HUSBAND.

H. M. Crane, Who Claims to Be a Traveling Salesman, Left Her at Wayne Hotel Last Monday.

Mrs. H. M. Crane is registered at the Wayne and occupies room 22. She arrived at the hotel last Monday in company with her husband and her lady friend, and the former she has not seen since he left her at the hotel desk, although she is anxious to. Her story is more or less pathetic. She says she was married to Crane about six weeks ago at St. Louis, from which city he travels as a salesman for a plumbers' supply house. Last week she visited friends at Bluffton and with her husband and lady friend came to Fort Wayne on Monday. Her husband took the two ladies to the hotel and stated that he would not register, because he did not know how long he would stay, as he had some important business to transact with city officials, but would be back shortly, meanwhile telling his wife and her friend to take a room together, which they did. Mr. Crane immediately went to the Aveline house, where he registered and was assigned to room 20. Early on Tuesday morning he paid his bill, pulled his freight and left on an early morning train and has not since been heard from. Mrs. Crane yesterday became alarmed at his protracted absence and called on several gentlemen with whom her husband had told her he had important business engagements. None of the gentlemen knew her husband and had never heard of him. Mrs. Crane is without money and is distracted. She stated to a gentleman upon whom she called yesterday, that she could not divine any reason her husband could have for deserting her.

WILL BE WED TONIGHT.

Wiegand Kempf and Miss Martha Raquet will be married this evening, and after the ceremony there will be a reception at the corner of Holman and Hanna streets, at the residence of the bride's sister, Mrs. George Sunley. Mr. Kempf, familiarly known to his friends as "Wig," was for a number of years a pressman employed by the Newspaper Union, and less than a year ago removed to Sioux City, Iowa, where he is in charge of the press room of the same company in the branch at that city. He is a member of Fort Wayne lodge, No. 116, K. of P., and was formerly a member of the Olympia and First Regiment bands. His musician friends will serenade him this evening and commit other depredations that he will never forget.

THE OPHIR AT YARMOUTH.

Yarmouth, Isle of Wight, Oct. 31.—The Ophir, with the fleet, anchored off Yarmouth, Isle of Wight, at 4 p. m. King Edward and Queen Alexandra left London by special train at 5 p. m. for Portsmouth. The children of the Duke and Duchess of Cornwall and York are with their majesties.

PLAGUE AT LIVERPOOL.

Rome, Oct. 31.—The port of Liverpool, England, has been declared infected with the bubonic plague. Arrivals from Liverpool at Italian ports will undergo the customary disinfection.

Bordeaux, France, Oct. 31.—Ministerial instructions have been received here to disinfect all vessels arriving at Bordeaux from Liverpool.

A DEFENSE READY

TURKEY WILL RESIST REPAYMENT OF RANSOM.

A PHASE OF THE STONE CASE

PORTE WILL REPUDIATE ALL RESPONSIBILITY.

HOLDS MISSIONARY TO BLAME

FOR HER CAPTURE BY BULGARIAN BRIGANDS.

Constantinople, Oct. 31—The Turkish government is already preparing to resist the anticipated demand of the United States for repayment of the ransom necessary to secure the release of Miss Ellen M. Stone, the abducted American missionary.

The porte repudiates all responsibility for the kidnaping of Miss Stone and maintains that the United States has no claim against Turkey and that, therefore, the latter is justified in refusing to recoup the United States for the money expended in her rescue.

A high Turkish official this morning informed a representative of the Associated Press that the Turkish resistance of any claims would be based upon the contentions:

First, that Miss Stone, although warned of the dangers of the road, persisted in traveling; second, that she did not notify the authorities of her intention in order to obtain an escort, which precaution even the foreign consuls always take when traveling in such outlying, insecure districts of the empire, and, third, that the brigands who kidnaped Miss Stone and her companions were Bulgarians, that the coup was planned in Bulgaria and that sanctuary was found in Bulgarian territory.

RECEPTION FOR MISS STONE.

New York, Oct. 31.—Americans are preparing a reception for Miss Stone upon her release, says a Sofia correspondent of the Journal and Advertiser. The Russian minister, M. Bakhmeteff, expects a letter soon from Miss Stone and the brigands through the envoy sent last Friday. It is believed that Miss Stone will be able to be present at Philipolis on November 8 at the dedication of the new American church. After that she will doubtless go to the United States to see her relatives.

It is hoped that Miss Stone will be able to reach America by Thanksgiving day in case she is released by the brigands.

DO NOT BELIEVE HER DEAD.

Washington, Oct. 31.—Referring to the opinion expressed yesterday in some of the Russian publications to the effect that Miss Stone is probably dead, it may be stated that the state department is convinced to the contrary and is satisfied that with the means of communication it now has at its disposal the event of Miss Stone's death would be made known to it. The department is in almost hourly communication with its agents in Turkey and Bulgaria. The latest information received indicates that communication has been established with the brigands themselves. The department officials are sanguine of the outcome.

TRIAL OF JAMES CALLAHAN.

Omaha, Neb., Oct. 31.—Attorney Sears, Mr. Cudahy's private counsel, was the first witness today in the trial of James Callahan on the charge of perjury in his testimony during the kidnaping trial. Mr. Sears testified that he withdrew from an Omaha bank the sum of $25,000 in gold, which he placed in the hands of Mr. Cudahy with which to pay the ransom demanded by the kidnapers for the return of his son Samuel Burris, who sold the famous bay pony to the alleged kidnapers, was put on the stand to identify Callahan as one of the parties to the deal. Mrs. Witium, who lived in the vicinity of the alleged hiding place of Callahan and his companions, testified to seeing them frequently and positively identified Callahan as one of the men whom she saw driving the pony.

PRESIDENT WILL VOTE.

Washington, Oct. 31.—President Roosevelt and Secretary Cortelyou will leave for New York early next Monday morning to vote on Tuesday. The president and Mr. Cortelyou are both from the same county in New York and their voting precincts are only seven or eight miles apart. President Roosevelt will vote at Oyster Bay, L. I., and Secretary Cortelyou at Hempstead, L. I. Both will vote early and return to Washington Tuesday afternoon, arriving here Tuesday evening. Mrs. Roosevelt will accompany the president. She has some matters at Oyster Bay which she desires to arrange during the visit. Assistant Secretary Loeb and Henry Pickney, the president's colored steward, will go with the party. Mr. Loeb and the steward are residents of Oyster Bay and will vote there.

NOW PROPERLY MARRIED.

London, Oct. 31.—Earl Russell and Mrs. Somerville were married at the registry office in London this morning.

WILL OPEN LIBRARY BIDS

TRUSTEES TO GET FIGURES THIS EVENING.

Plans Are Very Fine and It Is Not Unlikely Bids Will Exceed Carnegie Donation.

The board of school trustees will meet this evening at the office of Superintendent Study at the high school building to open bids for the new Carnegie library building. On account of the restrictions placed upon the constractors, requiring that all the stone used in the construction of the building should be cut in Fort Wayne, it is not believed that there will be any foreign bidders and it is not thought that there will be over four or five bids presented. The plans were prepared by Architect Grindle and contractors who have seen them say they are the most complete working plans they have ever had to make estimates from. As is well known, the amount of money donated by Mr. Carnegie for library purposes in Fort Wayne is $75,000, but it is intimated, and on very good authority too, that the building outlined by Mr. Grindle can not be built for anything like that sum that not less than $90,000 or possibly $100,000 would be required to carry out the architect's ideas. Treasurer Rockhill, of the school board, when asked about the matter, said that he could say absolutely nothing, as he had not yet seen the bids. When asked what would be done in case the bids far exceeded the donation he said he could not anticipate what the bids would be and could not even guess what the board would do. He said that he presumed if the bids were not at too great variance with the donation, the plans could be modified by the architect so as to come within reach of the money in sight. He declined, however, to even make a guess as to what would be done.

CEBU INSURGENTS QUIT

LAY DOWN THEIR ARMS AND SURRENDER.

Act in Good Faith, Says General Hughes, in Obedience to Demand of People for Peace.

Washington, Oct. 31.—An important cablegram was received at the war department this afternoon from General Chaffee. It follows in part:

"Manila, Oct. 31.—Adjutant General, Washington—The following from Brigadier General Hughes: 'Insurrecto forces Cebu island have come in, laid down arms in good faith in obedience to demand of people for peace; 150 rifles, eight brass pieces, sixty officers, 470 men. Affairs not yet satisfactory Bohol Island; may move additional troops there to force settlement.

"'This settles for present, at least, disturbance hereto existing in Cebu. Future disorders that island will be made by deliberate action of inhabitants, as peace may be easily preserved if people disposed to do so.'

"Shall advise Hughes waste no time, but move on Bohol immediately.

(Signed.) "Chaffee."

BANKS CONSOLIDATED.

Colorado Springs, Col., Oct. 31.—The First National bank of Colorado City has been organized, being a consolidation of the interests of the Citizens' State bank of Colorado City and those of a number of Kansas capitalists.

CLOSE THEIR CASE

DEFENSE IN SCHLEY TRIAL HAS FINISHED.

LAST WITNESS IS HEARD

DEPARTMENT HAS TESTIMONY IN REBUTTAL.

WOULD IMPEACH WITNESSES

SCHLEY NOT TO CORRECT HIS STATEMENTS AT ONCE.

Washington, Oct. 31.—When the Schley court of inquiry opened today Capt. T. S. Borden was called as the first witness for the day and as the last witness who was to testify in Admiral Schley's behalf. When he had finished Mr. Raynor said, at 11:05: "May it please the court, we have closed our case."

It had been expected that Admiral Barker would be called but it has lately been decided that his testimony, if given, would not be material, and it is not now expected that he will testify. Captain Borden is an officer in the marine corps and served on the Brooklyn during the Cuban campaign.

His testimony was, therefore, largely corroborative of the evidence which has heretofore been given by others who were on the Brooklyn.

The remainder of the day it was expected when the court opened would be taken up with the hearing of witnesses called by the navy department for the purpose of impeaching certain parts of the testimony given in support of Admiral Schley. Included in the list for this purpose is Capt. Charles D. Sigsbee, of the St. Paul; Capt. Francis E. Chadwick, of Admiral Sampson's flagship, the New York; Mr. Sylvester Scoville, who was a newspaper correspondent in Cuban waters during the campaign; Major T. N. Wood, who served on board the Massachusetts as marine officer; Lieutenant Commander Potts and Lieutenant Grant, who also were on the Massachusetts, and Capt. Joseph G. Eaton, who was on the Resolute.

SIGSBEE RECALLED.

Captain Sigsbee had been called for the purpose of rebutting the testimony as to his message to the Somers N. Smith press boat, and also his conversation on the Brooklyn, to which witnesses have testified that he told Commodore Schley the Spaniards were not in Santiago.

Mr. Scoville also was summoned for the purpose of rebutting the testimony as to Captain Sigsbee's message to the press boat Somers N. Smith.

Captain Chadwick was called to testify concerning the conference between Admiral Sampson and Commodore Schley on May 19. Major Wood, Commander Potts and Lieutenant Grant were expected to testify relative to the wardroom conversation on the Massachusetts on May 31, in which Lieutenant Sears is alleged to have spoken of the difficulty of getting Admiral Schley to embark upon the reconnoissance in the harbor at Santiago, which took place on that day. The counsel of Admiral Schley was prepared to make technical objections to most of this testimony, and the day began with the prospect that much of the time would be occupied in discussing points at issue between the counsel on the two sides of the case.

Admiral Schley will probably not return to the witness stand for the correction of his testimony for two or three days.

Captain Borden said that he had been junior marine officer on the Brooklyn. In reply to questions from Mr. Raynor he said he had seen Commodore Schley three times during the battle, and that his bearing was "everything that the officers and crew could have expected."

When Captain Borden had concluded Mr. Raynor made announcement that the defense had no more witnesses to call and had closed its case.

SCHLEY'S REPORT.

Captain Parker then asked to have put in evidence a number of documents, including the report of the battle of July 3, Admiral Schley made from Montevidio, June 13, 1900. This report never has been presented. Following is an extract from it:

"In my judgment from an unobstructed view of the entire field of action during the combat the Vizcnya was not more than 1,000 yards

No one needs to be told to try to cure a cough. But any one will be glad to be told of a means of cure which will be thorough and lasting. Dr. Pierce's Golden Medical Discovery is a medicine which can be confidently relied on to cure diseases of the organs of respiration. It cures obstinate, deep-seated coughs, bronchitis and bleeding of the lungs. It cures when nothing else will cure, and the local physician says: "There is nothing more that we can do."

There is no alcohol in "Golden Medical Discovery," and it is absolutely free from opium, cocaine and all other narcotics.

The dealer, tempted by the little more profit paid by less meritorious medicines, will sometimes try and sell a substitute when the "Discovery" is asked for. No substitute medicine will satisfy the sick like "Golden Medical Discovery." It always helps. It almost always cures.

"Two years ago a severe cough started on me and I was also bothered with catarrh," writes Mr. B. Skjod, of Dunwood, Chicago Co., Minn. "I could not sleep nights, as the cough was worse at night. I tried several cough medicines, but to no avail, until a year ago, when I got so bad I could not breathe through my nose at times. I then tried Dr. Pierce's Golden Medical Discovery. After taking eight bottles of Dr. Pierce's Golden Medical Discovery, and at the same time using Dr. Sage's Catarrh Remedy, I am a well man. I can thank Dr. Pierce for my good health, and will recommend his medicines to any one suffering from the same trouble."

DUNN TAKES STAND

(Continued From First Page.)

On the cross-examination by Judge Hench witness said he heard of Dunn running into John Poinsett when the latter was injured, but did not hear that Dunn was intoxicated. Asked if he had heard of Dunn being arrested in Noble county for assault and battery on his own wife, witness said "no." Witness said he had heard since his arrest that Dunn had been suspected of attempts at criminal operations. Did not know Dunn in either Noble or DeKalb county.

Charles M. Gillette called; recorder of Allen county; have lived in Allen county fifty-six years; am acquainted with Charles Dunn; have known him about thirty years. Court sustained objection of state's attorney to questions relating to Dunn's reputation for honesty. Witness said Dunn's reputation for humanity and kindness was good.

Replying to Judge Hench, Mr. Gillette said he was not acquainted with people at Wallen; did not know what Dunn's reputation for kindness and humanity was at Wallen.

WAS ALSO STATE WITNESS.

Walter Haire called; was a witness for the state; know location of Dunn's chicken yard, where high weeds grew; witness did not search that yard; did not see Badine and others there; were weeds and raspberry bushes in patch; picket fence surrounded it; did not see Badine and others search chicken yard.

When Mr. Colerick asked witness if he had not told him (Colerick) that he had searched the chicken yard and that he had spoken to Mr. Dunn about it that morning, witness said he had searched a raspberry patch.

Mr. Colerick drew a diagram representing the Dunn premises and submitted it to the witness, who then indicated where he had made his search.

THE VIEW OF THE BARN.

Thomas Swank called; was called as witness by the state a few days ago; know where Dunn's horse barn is located; know where defendant lives at Wallen; there is a back door to woodshed. If one stood twenty feet west of woodshed one could see but one door on east side of Dunn's barn; that would be top door; could not from this point see any of the doors that enter barn from ground. Witness had made the effort last night and this morning. Doors are the same as there last summer. Can't see the doors by moving twenty feet north. Made the experiment to see whether I could or not; made the experiment by request.

Cross-examined, witness said he made the examination last evening between 5 and 6 o'clock; stood on porch; stood on sill of door. From doorsill could see the middle and south doors of barn; could see them from first step. From corner of porch on the level could see through picket fence. Was there this morning, saw from the porch a man standing in middle barn door in his shirt sleeves; on steps a little distance away could see man in doorway with hands uplifted.

On level could see him through the pickets.

To Mr. Colerick's question witness said he could see doors while standing about eight feet from the house. Willow tree denuded of leaves was between witness when twenty feet northwest, obstructed view of south and middle doors.

Witness said to Judge Hench that he believed Walter Haire had gone into garden this morning; there were several of us there.

Mrs. Julia A. Dunten, of Huntertown, was called; lived there in July, 1901; husband and I run a grocery and restaurant; sell ice cream. Met Marie Sampleson once; know Edna Cothrell. They were at our ice cream parlor Saturday evening, July 6.

HAD HEARD TESTIMONY.

Judge Hench interrupted to ask witness if she had not sat in court room and heard evidence; witness said she had done so one day.

Continuing, Mrs. Dunten said Edna had been at Huntertown before Saturday evening; but not Marie. They were there Saturday evening together. Young man called and asked for the girls. Edna Cothrell worked at my house in September three weeks; think she came about September 6.

Mr. Colerick paused in his questioning to ask that Edna Cothrell be called, and Mrs. Dunten left the stand to make way for her. Miss Cothrell said she was not at Dunn's house July 2 between time she went in morning with mother to get water and time she inquired for Alice at 6:30 o'clock.

There was objection on the part of the state to the questioning, on the ground that it was foreign to the point under immediate consideration. Mr. Colerick said he was offering the question as a part of the original defense. The answer was allowed to remain.

EDNA COTHRELL CALLED.

Witness said she was at Mrs. Dunten's in Huntertown in September; worked two weeks. Asked if while working for Mrs. Dunten she had told Mrs. Dunten that she said on the road home from Huntertown July 6 that she had said to Del Reed: "I'm going to get papa to search Dunn's cistern tomorrow;" and if Marie had said to her, "D——n your soul; if you say that again I'll choke you to death; I don't like you anyhow; and I'd just as leave kill you as not?" Edna replied "No."

Mrs. Dunten was recalled and said while Edna was at her home in September Edna had told her of the conversation on the way home; Edna had said Marie had told her if she said that again she would slap her face.

DETECTIVE MAHAN CALLED.

Questioned by Mr. Emrick witness said Detective Mahan had called at their place several times; he came to Huntertown a few weeks after girl was missing; was last there just before trial commenced. Never talked to me about the case.

Had a hired girl named Pearl Brown, of LaOtto, before Edna Cothrell came; has not worked there since last winter. Nobody suggested that I hire Edna Cothrell; we heard she wanted a place and I went to see her.

Know Paul G. Dunten, said witness in response to Mr. Colerick's question; he is witness' father-in-law. Never saw others there about the Dunn case. Mahan did not say anything about hiring Edna. She had been gone from our place before officers came.

HAD LONG KNOWN DUNN.

R. L. Remy was the next witness called by defense; real estate man; formerly a farmer; was justice of the peace in Washington township; have known Dunn twenty years; am acquainted about Wallen and Perry township; Dunn's reputation for humanity and kindness was good.

By Mr. Emrick—Witness had read in newspaper since Dunn's arrest of suspicion that he had caused death of certain girls by attempting criminal operation; have not been at Wallen for ten years; don't know what people in that town say about Dunn; did not remember that Poinsett had died from injuries received by being driven over by Dunn; had not heard that police were called in to protect Dunn's wife from assault by him; had no knowledge of charges against Dunn in Noble county; know Dunn's neighbors on Spy Run avenue; did not know that Weissel girl worked for Dunn until short time before her death.

Questioned by Mr. Morris, witness said he never knew anything against Dunn.

Alfred Swift called; farmer near Robison park; lived in this county sixty years; have known Dunn for thirty years. As to his general reputation for kindness and humanity prior to the time of his arrest, witness said he was not acquainted with it.

DUNN'S REPUTATION GOOD.

O. B. Wiley was sworn; formerly county surveyor; in surveying for twenty-five years; at present superintending bridges. Had known Dunn for twenty or twenty-five years; his reputation for humanity and peaceableness is good.

Cross-examined by Mr. Emrick, witness said he understood Dunn had lived at Wallen; prior to his arrest he supposed Dunn lived on Spy Run avenue; was at Wallen in spring; did not stop there.

Alfred Swift, recalled, was asked by Mr. Colerick if he knew Dunn's reputation over the county for kindness and humanity. State entered objection, but was overruled. Witness said he did not know anything about it in recent years; did not know how it was five years ago.

Rose Cotterman called; was witness called by state a few days ago. Witness said she went to a point twenty feet south of Dunn's porch to see if she could see doors of Dunn's barn; could see the top of the doors from this point.

Could not see doors from point twenty feet northwest; could not see them from point twenty feet north.

OFFICERS WERE THERE.

Replying to Judge Hench, Mrs. Cotterman said she made the examination last night; think sky was cloudy. Witness pointed out Detective Mahan as man who stood beside her and pointed out fact that she could not see doors. Could see south and middel door from porch; could see man in doors from position near the clothesline. This was this morning; daylight. Detective was not there. Man in door this morning stood with his hands uplifted; was not down twenty feet from porch this morning.

To Mr. Morris, witness said last night she stood twenty feet from woodshed and could not see doors; then from twenty feet south could not see doors.

Point at clothesline where doors could be seen was about eight feet north of house. This morning Mr. Ryan and Mr. Stout were there; we took clothesline and held it in position.

Bayless Swift was sworn; live in Fort Wayne; know Charles Dunn; know his general reputation for humanity and kindness prior to arrest. It was good.

Cross-examined by Mr. Emrick, witness did not know Dunn was living at Wallen at time of his arrest; he had previously lived on Spy Run avenue. Did not know Weissel girl worked for him there; did not hear of reported criminal operation on Weissel girl; did not go to Wallen much; occasionally met Dunn on streets.

Witness had not heard anything with reference to Dunn's treatment of his invalid wife. All he knew was from his own observations.

Defendant's counsel now offered to prove by witness that he (Swift) had been at Dunn's house several times and knew from personal knowledge that Dunn's treatment of his wife was kind.

Witness was permitted to answer and said so far as he had ever seen Dunn's treatment of his wife had been kind and considerate.

Witness said it must have been eight or ten years ago that he was at Dunn's house.

At this point court adjourned for the noon recess.

MR. RANDALL TESTIFIES.

Perry A. Randall was the first witness called at the opening of court this afternoon; lawyer and interests in farm and city property and saw mill; pretty generally acquainted over the county. Have known Charles Dunn about forty years—first in Noble county when I was a boy. Have done more or less business with Mr. Dunn for twenty-five years; have been at his house frequently; reputation for humanity and kindness was good.

Court sustained state's objection to the inquiry regarding witness knowledge of Dunn's treatment of his wife.

Cross-examined by Mr. Emrick, witness said he had seen Archie Mahan, the detective; am not interested in the outcome of the case more than any other citizen; think I told him of one witness.

Ludwig Welshemer was the next witness called; have lived in Allen county forty-eight years; fairly well acquainted over county; made a campaign for office some years ago. I am known Dunn for twenty or twenty-five years; part of the time he was my neighbor; his reputation for kindliness and humanity is good.

Cross-examined by Mr. Emrick, witness said he lived in Lake township; have not been in Wallen for four or five years; have not talked with people there during that time. Lived at Churubusco two and one-half years; don't know about his reputation during that time. Lived a neighbor to him possibly twenty years.

CALLED MARIE SAMPLESON.

John Miller, of Kendallville, a brother of Mrs. Dunn, was among the spectators at the trial today and occupied a seat near the accused man.

There was a recess while attorneys for defense held a consultation, and upon the resumption of the case Marie Sampleson was called to the witness stand.

Witness said she did not know John T. Dougall, of the Fort Wayne News. Asked if, on the day of the coroner's inquest she were present, witness answered "yes," and said she was on the corridor of the court house.

Asked if she had, before the inquest, Mr. Dougall had called her aside and inquired as to what she knew, and regarding hearing screams, and that she had told him she heard screams, and that they came from the Haire children in front of the house, witness said she did not know.

DUNN IS CALLED.

Charles W. Dunn was called and stepped briskly to the stand. He answered Mr. Morris' questions distinctly.

My full name is Charles W. Dunn; born in Lagrange county, April 27, 1840; was about twelve years old when I moved to Kendallville. Had a common school education; went one term when nearly a man grown at Kendallville.

Did not learn a trade; drove a truck for seven years and three months; then farmed for about two years. Was married at twenty-one years old; married while I was driving dray at Kendallville. Lived at Brimfield, then at Elkhart in dray business. When I quit trucking at Kendallville went to farming; after two or three years returned to trucking; then in livery business. Was in sawlog business; then ran a billiard saloon at Brimfield and Albion.

Came to Allen county in 1871 or 1872. Till 1876 was in wood business. Went to Wallen the last time February 19; had lived west of there three miles on Goshen road before. Wife I married at twenty-one is still living.

Wife has been an invalid—out of health for over thirty years. Have one son, William.

July 2, 1901, I arose about 4 o'clock; did the general morning work; seeing about the house, milking, etc. Had breakfast about 5 or

with the close confinement at my desk brought on nervous prostration, so much so that for a year I doctored continually. I tried different remedies which only succeeded in poisoning my system, and my stomach refused food. A neighbor who had suffered with ovarian troubles and was perfectly cured, called my attention to your Vegetable Compound, and I made up my mind to give it a two months' fair trial. However, before one month had passed I was like a new woman, and after six weeks faithful use of the Compound I was in perfect health. It certainly is of great benefit to women, and I wish every poor suffering woman could have a chance to try it. Yours very truly, Miss W. Dodane; secretary, Julius Simon; treasurer, Joseph Berghoff; floor manager, Carl ZurMuhlen.

Pure Blood

We wish you would ask your doctor what makes you so nervous, why you are so easily tired, and what makes your digestion so weak. See if he doesn't say, "Impure blood." He will probably speak about Ayer's Sarsaparilla, too.

"For two years I suffered greatly from dyspepsia and depression of spirits. I then tried Ayer's Sarsaparilla, and in one week I was a new man."

NOT A CASE OF HAZING.

Editor of The Sentinel—A statement was made in several daily papers of this city to the effect that Paul Weber, a student of Concordia college, was seriously hurt in a case of hazing. This statement is based on a misleading report and is entirely erroneous. While playing with several boys the lad jumped from a window twice, and in his second attempt fell on his left hand, cutting it with several pieces of glass. We beg that the suspicion of rowdyism be taken from the institution.

Yours very truly,
Paul Kretzmann,
For the Class of '02.

Mrs. Porter Leach and little son, of Detroit, are the guests of Mr. and Mrs. William Hahn, of West Berry street.

A DAILY NUISANCE.

A Simple Remedy Which Will Interest Catarrh Sufferers.

In its earlier stages catarrh is more of a nuisance than a menace to the general health, but sooner or later, the disease extends to the throat, bronchial tubes and even to the stomach and intestines.

Catarrh is essentially a disease of the mucous membrane, the local symptoms being a profuse discharge

of mucous, stoppage of the nostrils, irritation in throat, causing coughing, sneezing, gagging and frequent clearings of the throat and head.

The usual treatment by local douches, snuffs, salves, etc., often gives temporary relief, but anything like a cure can only be obtained by a treatment which removes the catarrhal taint from the blood and the disappearance of the inflammation from the mucous surfaces.

A new remedy which meets these requirements and which so far has been remarkably successful in curing catarrh, is Stuart's Catarrh Tablets.

These tablets act upon the blood and mucous membranes only. They can hardly be called a secret patent medicine as they are composed of such valuable remedies as Sanguinaria, Hydrastin, Eucalyptol and similar cleansing antiseptics which cure by eliminating from the blood and mucous surfaces the catarrhal poison.

Stuart's Catarrh Tablets are large, pleasant tasting lozenges taken internally, allowing them to dissolve slowly in the mouth, in this way they reach the throat, fauces and the entire alimentary canal.

If desired, they may also be dissolved in water and used as a douche, in addition to the internal use, but it is not at all necessary to use a douche; a few of them dissolved in the mouth daily will be sufficient. However, when there is much stoppage of the nose, a douche made from these tablets will give immediate relief, but the regular daily use internally of these tablets will cure the whole catarrhal trouble without resorting to the inconvenience of the douche.

Dr. Hement states "that the internal treatment for catarrh is rapidly taking the place of the old plan of douching, and local application, and further says that probably the best and certainly the safest remedy at present on the market is Stuart's Catarrh Tablets, as no secret is made of their composition and all the really efficient remedies for catarrh are contained in this tablet."

Druggists sell Stuart's Catarrh Tablets at fifty cents for full sized packages. Ask your druggist and if he is honest he will tell you there is no safer, more palatable, more efficient and convenient remedy on the market.

A French fleet is proceeding to Turkey with sealed orders which all the world knows mean pay, pay, pay.

It is a conspicuous fact that the anarchist leaders all over the world who profess to be propagandizing for the working classes do not themselves do any work.

Since Mr. Ernest Seton-Thompson has been made over by the courts into Mr. Ernest Thompson-Seton, it is natural to wonder if the "animals I have known" will know him.

The kansas farmer who named his baby Leon Czolgosz would doubtless be a more proper subject for a lunacy commission than an object of the wrath of his indignant neighbors, who, however, are not much to be blamed for driving him from among them.

Malvar, the only great Filipino chieftain who has not surrendered, has constituted himself the whole thing and is attempting to reorganize the insurgent armies. No less for his own good than for the welfare of the Philippines, one Gen. Fred Funston should be at once commissioned to go forth to show Malvar the way into town.

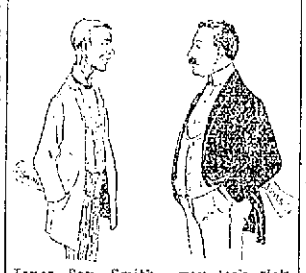
We doubt not that in many respects President Roosevelt's forthcoming annual message will be a model and a refreshing departure from compositions of the sort by other presidents. At the same time we believe the message is being touted too loudly too far in advance. Public expectation is getting mighty high and may be difficult to reach, even by President Roosevelt.

The brave are always generous, and if anything could exceed Admiral Schley's bravery it is his generosity. He does not now and never has sought to claim more than a modest share of credit for the victory at Santiago, though the country has believed him entitled to the glory of a victorious commander-in-chief. He has steadfastly declared there was glory enough for all, and we agree with him—glory for all, including Admiral Sampson, in whatever measure he is entitled to glory for victory in a battle in which he bore no part.

In the official list of receptions at the white house during the coming winter no provision is made for a reception to the public. This discontinuance of the time-honored custom of the president receiving the public once a year is said to be directly due to the Buffalo tragedy. Taken in connection with the omission of handshaking at the Yule receptions, it is believed to mean the abolition of what is now regarded as an unnecessary and dangerous custom—the personal greeting by the president of all who can come within reach of his hand. Beyond the satisfaction of an insane desire there is no reason why the public should insist upon the perpetuation of such a ridiculous custom. Not only does it expose the president to needless danger, but the effort causes discomfort to thousands and to the president himself physical weariness of a peculiarly painful character. Whether due to President Roosevelt personally or to the anxiety of his advisers, the elimination of the handshaking nuisance is to be welcomed as a much-needed reform.

CALLS BABY LEON CZOLGOSZ.

Topeka, Kan., Oct. 31.—At Grantropolis, a small town in Franklin county, M. Bernheimer, a farmer, named his infant son Leon Czolgosz and was driven from the county yesterday by indignant citizens. Bernheimer sought a priest yesterday and asked him to christen his son. When the point in the ceremonies for the name to be given was reached the priest indignantly refused to christen an infant with such a name, and administered a stinging rebuke to the parents.



Jones—Say, Smith, you look sick. What are you taking?

Smith—I am taking candy tablets, slightly medicated; they taste good and I can dissolve them in my mouth.

Jones—Yes, you look like it! When I was in your condition, suffering from dyspepsia, my physician recommended Peptorene, the Health Tablet, made at Battle Creek, Mich., and just look at me now. I can eat anything that I like. I have found Peptorene, the Health Tablet, the best remedy that I have ever tried for indigestion, constipation, sour stomach, headache and all other troubles arising from a disordered stomach. It is sold by A. C. Geeke, Wm. L. Waltemath, Meyer Bros. & Co. and Pellens & Polster, or write for a free trial treatment to the Battle Creek Health Tablet Co., Ltd.

THE NURSE IS ARRESTED

SUSPECTED OF THE MURDER OF FOUR PERSONS.

Mysterious Death in Massachusetts of Those Whom Miss Jane Toppan Attended.

Barnestable, Mass., Oct. 31.—Miss Jane Toppan, who was arrested yesterday at Amherst, N. H., on suspicion of being connected with the alleged murder of Mrs. Mary Gibbs at Cataumet, was brought here yesterday afternoon. She was taken to the local jail and was arraigned this morning.

Miss Toppan was held without bail for further hearing on November 8 in the First Barnstable district court. The prisoner pleaded not guilty. Miss Toppan seemed very weak and nervous in court.

Mrs. Gibbs' husband, Capt. Irving Gibbs, who is captain of the coasting schooner, Golden Ball, was away on that vessel at the time of his wife's death. On learning of it, at a coast port, he immediately returned home, and although there had been up to that time no suspicion of foul play, Captain Gibbs believed that there should be an investigation and placed the matter in the hands of District Attorney Holmes.

The bodies of Mrs. Gordon and Mrs. Gibbs were exhumed and the stomachs were sent to Professor Wood, of Harvard university, and as a result of his examination Miss Toppan was arrested on suspicion of having poisoned the four members of the Gibbs family, having attended them as a nurse. The police assert that they have sufficient evidence to convict Miss Toppan, although they will not disclose any of it.

HELEN M. GOULD ACCEPTS.

New York, Oct. 31.—Miss Helen M. Gould last night announced that she had accepted the position of vice president of the McKinley Memorial association. "I shall," said Miss Gould, "gladly serve on the committee and accept the office and do all I can to help build the monument to the memory of the late President McKinley. It is a worthy undertaking and I am heartily in favor of it."

Miss Gould also said that she had accepted the invitation to be a member of the board of women managers of the Louisiana purchase exposition of 1903.

DUTCH MAY AID THE BOERS.

The Hague, Oct. 31.—During a discussion of foreign questions in the budget of the second chamber of the states general yesterday the report of the Dutch Red Cross society, regarding the capture of the Dutch ambulance corps near Pretoria in the summer of last year and the general conduct of the South African war, formed the subjects of numerous questions addressed to the government. Several members urged the government to seek an agreement with Germany with a view of bringing pressure upon Great Britain to submit the whole question to arbitration.

FAVOR MUNICIPAL LINES.

SOCIALIST PARTY DESIRES CITY TO OWN THEM.

Wants the City to Prepare to Do All of Fort Wayne's Street Car Business.

The following statement relating to the present interurban railway matters has been adopted by the central branch of the socialist party in this city:

"The interurban railways now clamering for admission into our city should be encouraged by every individual believing in progress. No opportunities should be lost that will add to the comforts of society and the avenues of transportation and travel. Our city has developed into an important center of distribution due to the push, energy and activity of its inhabitants, and its geographical location, therefore it would be beneficial to the surrounding towns lying around us, even more than it would to our own city to have interurban railways. The members of the central branch socialist party favor and encourage these means of transportation, and consequently wish to go on record as to the manner those enterprises should enter our city. We claim it to be an undisputable fact that in the end society pays all the bills.

"Therefore we hold that the cost of construction of interurban railways is paid by society.

"The people that ride on the cars and the freight sent over these lines pays for all the grading, ties, rails, poles, wire, cars and power stations of such lines. This being true, the question arises 'If the people pay all these bills,' why not own at least that portion which is within the city limits?

"We are utterly opposed to giving away any franchises unless the tracks within the city limits shall belong to the people of our city, and shall forever be the property of the city, with the right to charge any amount it sees fit to the company using said tracks.

"If Harrison street will be utilized for that purpose our council should aim not only to have interurban lines use that street, but the city should extend its lines into all parts of our city and prepare to do our own street car business, and have the profits which are made annually by our present company remain here in our city instead of going to a few capitalists in Cleveland. The people that ride on our cars pay all the wages of the conductors and motormen and others employed by the company; not only that, these nickles pay for all the repairs and taxes and all other expenses necessary to operate such lines, then why not prepare to own them.

"Municipal ownership of street railways is the order of the day in all communities and we can not afford to remain dormant upon questions of such great importance to the people.

"Adopted by central branch socialist party, October 30, 1901.

"Fred Rolf,
"Secretary."

FELL FROM THE TOWER.

Seymour Heimer, of 172 Greene street, a lad about 16 years old, was painfully injured while climbing the electric light tower at Holton and Creighton avenues. When about thirty feet from the ground the boy stepped on a live wire, and the shock caused him to fall to the ground. He was unconscious when picked up and an examination of his injuries showed that his foot and leg had been badly burned and that he had been severely shaken up. No bones were broken.

AFTER DISHONEST CLERKS.

Two or three of the big dry goods houses have employed detectives to keep an eye on clerks suspected of bing dishonest, and in the past few days several employes have been discharged for stealing. Some indignation exists among the employes of these stores, as it is claimed by them that the discharges are for infractions of the rules instead of for stealing, and that the reputations of several clerks have been ruined on account of misinformation.

BIG PEDRO PARTY.

The Catholic Benevolent League of Indiana gave a big progressive pedro party in Saengerbund hall last evening, there being over 100 tables and about 425 guests. All the branches of the league in the city united in giving the party, and a large crowd was down from Garrett for the games. The games began at 8:15 and were called at 11 o'clock. Forty-three prizes were given, the two $10 gold pieces being won by Paul Bebay and Otto Schirmeyer. Others who won prizes were: Messrs. Louis Treuchet, J. Harkenrider, Peter Baltes, H. A. Plumadore, Dr. J. L. Smith, Hugo Blombach, George Fry, Robert Schmall, Henry Arens, Peter Sorg, Joseph Catz, J. G. Noll, B. Hankins, Michael Rogers, J. B. Blensing, F. Webber, E. Nickodemus, George F. Sweet, G. B. Grimme, John Garta, H. K. Mittendorf, Val Fox, F. J. Voirol, C. Aurentz, M. G. Leu, Peter Lauer, George Beaver, G. Neiman, J. N. Henschen, C. J. Michels, Sheriff G. W. Stout, B. Mittendorf, William Goodfellow, Clem App, John C. Belot, William J. Harkenrider, O. F. Strodel.

IS CHIEF OF THE ROMANIES

KING STANLEY PAYS VISIT TO MAYOR BERGHOFF.

Has Set Up His Court Near Lindenwood Cemetery—The Monarch Talks of His People.

King Stanley, the acknowledged chief of the genuine "Romany Rye" Hungarian gypsies of the United States, is camped with his band south of Lindenwood cemetery, between the railroad and the cemetery property. Wednesday King Stanley came to the city and presented himself to Mayor Berghoff. He said that he came to report the presence of himself and followers, of whom there are about fifty; to assure the authorities that all of his party are law-abiding and honest; that he permits no questionable practices, and that he wanted to be held personally responsible for any unlawful act committed by any of his band. He finished the interview by inviting the mayor to take dinner with him on Sunday, which invitation was accepted. King Stanley is an interesting character, and to The Sentinel spoke freely of his life and his people. As is well known, the genuine gypsy headquarters are near Dayton, Ohio, where the king has a noble estate, a legacy from Queen Stanley, who died about four years ago. The king is a robust, heavy-set man, swarthy as to complexion, and decorated with a heavy mustache and sidewhiskers a la Burnside. He confesses to fifty-eight years of age. He dresses like a well-to-farmer, and in order to make his pants set well he weights his pockets with $20 gold pieces, of which he always carries enough to prevent any bagging at the knees. In this repect he is very similar to newspaper reporters. He speaks with a strong accent, but uses good English in a general way. "I was born in Hungary," said he to The Sentinel, "in a gypsy camp, as was my father before me. I have been king of the American gypsies for nearly four years and never had any trouble. The Romanies never have trouble. You go yourself some day and lose your job on the newspaper and then you get a covered wagon and some friends and horses, and you go out on the road and say you are gypsies, but you are not; you are just loafers, and you don't care who you have with you, and you travel through the country and trade horses, and sometimes steal, and then everybody says, 'Gypsies are near; they are bad! Lock up your cellars; gypsies are here!' It is not so. English gypsies! Pooh! (this in a tone of unutterable contempt). English thieves, that's all. My people are all like one family, and we don't steal and don't trade horses—not often. My women go to town and tell fortunes and sometimes sell little trinkets which they make. That's honest, ain't it? I buy and sell horses—never trade. If I see a horse that I want I buy him as cheap as I can; that's my business. If a man wants a horse that I have got I sell him for as much as I can get; that's the other fellow's business. When I get to a big town I go and see the mayor and policeman and tell him that I am here and that my people will be in town. I tell him we are honest and that if he can find a dishonest one in my party I'll give him a thousand dollars. And I am willing to deposit the money with the mayor, too; not all mayors, but some; some wouldn't give it back. Mayor Berghoff would. Anyway, I tell them not to bother my people; that I will be responsible for anything, and I guess I am worth it. It ain't gypsies that steal; its some other people. Yesterday my daughter took off her neck chain and laid it down in the corner of the tent while she went to wash her face; when she looked for the chain it was gone. It was made of German mark pieces, twenty franc pieces and American five dollar pieces—just sixty-four dollars in gold money in it. It's gone. Who took it? I don't know, but not gypsies—well, what's the use. Come and see me; I'll treat you well."

The king said he would remain about a week, when he would break camp and go to Cleveland for a couple of weeks, and would then go back home to Dayton. He has a voice like a bass singing pirate, is apparently jolly all the while, spends his money like a real king, appears honest and conscientious, and altogether is not a bad fellow to meet.

While dressing timber for side braces for the South Wayne sewer yesterday George Heisler, of Madison street, received a bad gash in the foot from a glancing adz. He was removed to Dr. McKeeman's office, where the cut, which is situated just below the ankle, was stitched up. The wound is a dangerous one on account of the severing of several of the muscles of the foot.

Heart Disease

retards the circulation, weakens the stomach, deranges digestion, pollutes the blood, destroys the nervous force and saps the vitality of the whole system. It causes pains in the side, palpitation, shortness of breath, smothering, dropsical swellings, sinking spells, and frequently ends all suffering in sudden death. Why tempt death when a cure is within easy reach?

"My head would get so hot it seemed to be burning up, while my feet were like ice. My limbs would swell and get numb. I had to sit in a chair day and night for months and my heart throbbed and pained me terribly. After using three bottles of Dr. Miles' Heart Cure I could do a good days work."

WAS LOVING HIM

WHEN PISTOL WENT OFF AND MADE HER A WIDOW.

A HOBOKEN WOMAN'S STORY

HELD ON SUSPICION OF MURDERING HUSBAND.

HAD WEAPON IN HER HAND

WHEN SHE HUGGED HIM GOOD BYE AND IT EXPLODED.

New York, Oct. 31.—John Chartrand, manager of a skating rink at Hoboken, N. J., is dead from the effects of a pistol wound on the head and his wife is under arrest pending investigation. Mrs. Chartrand's story is that her husband had been unable to rent an apartment for their accommodation of late and for that reason she went to live with her mother. She visited her husband at the rink last night and remained with him all night. She says that when she was about to leave the rink this morning her husband took out a revolver and offered it to her.

Chartrand had arranged, she says, to go on a hunting trip to Toms river, to be gone ten days and Mrs. Chartrand was to have taken care of the rink during his absence. He gave her the revolver, she says, to protect herself during her stay at the rink.

Mrs. Chartrand says she put her arms around her husband's neck to kiss him good-bye and that the revolver in some way was discharged. The bullet entered Chartrand's head behind the left ear and he died before he could be taken to a hospital.

THE NEWS OF THE POLICE

An eleven-year-old lad answering to the name of John Handschliegel was in police court this morning. The lad was a truant from school and after being roundly lectured by Judge Louttit and withered by a terrific arraignment by Poundmaster John Tremmel, the lad was taken to St. Mary's school by the latter.

Two bicycles and two rosaries constituted the find of the police last night. All the missing articles can be identified at the police station.

Continued complaints concerning mischievous boys come to the police station. This morning Lieutenant Lapp was sent out on a lecturing tour with nearly a dozen names on his list. Superintendent Gorsline says the boys are growing unusually troublesome and he is afraid he will be obliged to resort to drastic measures to keep them in check and in line.

ABOUT THE COURT HOUSE.

The will of the late William Wadge was filed today for probate. His grandchildren, W. H. W. and Laura Peltier, and an adopted daughter of his son, Richard Wadge, are named as the principal beneficiaries, and the two grandchildren are named as executors of the will. What portion of his estate is not specifically devised, he directs to be used in the erection of a monument to himself in Lindenwood cemetery.

W. W. Rockhill, treasurer of the board of school trustees, has filed his new bond with County Auditor Ortlieb, and is in the sum of $130,000. The bond is to cover the additional responsibility of the custody of $125,000 of the funds to be realized by the bond issue for the erection of the new training school building. The sureties are W. E. Mossman, Charles A. Wilding, G. W. Pixley and W. J. Vesey.

The damage suit of Meyer vs. Beverforden continues to hold the attention of the superior court and jury.

Gottlieb Haller has filed a petition as the surviving partner of the firm of Winch & Haller, asking for the appointment of appraisers.

Elizabeth Axt has been appointed and has qualified as administratrix of the estate of the late August Axt.

IN JUSTICES' COURTS.

The "Greeley street chicken fight" reached an acute stage this morning when the taking of testimony was commenced in Huser's court. After several hours of examination the paternity of the chicks still remained a matter of doubt. Accordingly the taking of testimony was continued until tomorrow afternoon.

Justice Franke acquitted John Cox and fined Charles Riley $1 and costs for trespass. The charge was filed by Michael Donahey, of Swinnfield street.

A number of friends surprised Mrs. Stephan yesterday at the home of her daughter, Mrs. Andrew Jacobs, of 42 Stophlet street, in honor of her eighty-second birthday anniversary.

DUNN TAKES STAND

(Continued From Second Page.)

5:30 o'clock. After breakfast I drew water from cistern for washing; then split wood. Later I went to George Hand's timber, five miles from where I live.

STATE'S LAST WITNESS.

Edna Ellen Cothrell, sister of the dead girl, was the last witness presented by the state in closing Wednesday afternoon. Her testimony, briefly summarized in The Sentinel last evening, is here given in more detail:

Am 15 years of age; daughter of Edward Cothrell; have lived at Wallen since March; previous to that resided in Fort Wayne. There are five children now living in father's family—I am the eldest; brother George is next, age 13; Alice was next, 10; Albert next, 10; Ida is younger. Alice was missed July 2.

Have known Charles Dunn ever since we moved to Wallen. Witness said that she arose July 2 about 6 o'clock, and continued: Mother and I went to Dunn's that morning to get rainwater to use in washing; that was about 7:30 o'clock; Dunn helped us get it from the cistern. Witness said she was not back at Dunn's that forenoon; was at home at noon and had lunch there; all of the family were present except father. We had radishes, onions, bread and butter and lemonade for lunch.

Witness said she was at home during afternoon helping mother with the washing; got through about 4 o'clock. Did not go to Dunn's that afternoon before supper, but went there about 6:30 that evening. Saw Dunn and Marie sitting at supper table; Mrs. Dunn was in sitting room. I told them Alice was not at home, and asked them to help me hunt her.

DUNN STOPPED HER.

Dunn said he would, and then he started to go upstairs. I started to follow him, and he stopped me at the first stair; said he would search upstairs. He came back soon and said she was not upstairs. He next went out to milk the cow, and I followed to the yard. After milking he took the milk to the house and I waited in the alley. He came back and went into the horse-barn. I went to the mill. When I saw him next he was coming out of the horse-barn; he had been in there about twenty minutes. I was at the mill with Mr. and Mrs. Mains and Rose searching the cistern. Then we went along the alley to our place; then up around the schoolhouse and next down the railroad track south. It was after 11 o'clock when I returned from the search; Ross Mains took me home; mother was there; father had gone to Fort Wayne.

SAID HE HAD SEARCHED.

Thursday I was at Dunn's; asked him if he had searched the cistern in the house. He said he had not. Next day I asked him again if he had searched the cistern; he said yes, and that there was nothing in there. Asked if she and Alice had had a quarrel at dinner Tuesday, witness said Alice was drinking from a tumbler that she was afraid she would break and witness told her to put it down; witness said she gave Alice a shove, but did not strike her or thump her. Did not tell Dunn at any time during the week that I had thumped my sister. I was not at his house Tuesday when he was eating dinner.

On the cross examination by Mr. Colerick, witness said about two hours were consumed in the search Tuesday evening up to the time they left the barnyard. Witness talked with Marie while Dunn was upstairs; did not talk to her again that evening. Witness repeated her previous testimony regarding Dunn's assertion that he had searched the cistern.

We ate supper that night about 6 o'clock; Alice had not been missed before that, and so far as witness knew no previous inquiry had been made for her. Was not alarmed until she failed to appear for supper. Witness went to Dunn's to inquire because Ida (her sister) had said Alice had gone there. Dunn told me Alice was not there.

SOME STOUT DENIALS.

Witness said she had not walked up to Marie and said: "Marie, you know where my sister is;" did not ask Marie at any time why she did not search the cistern. Marie did not say to witness: "D—n you, if you say that again, I'll choke you." Witness stoutly repudiated a statement alleged to have been made to her by Marie on the road home from Huntertown wherein Marie threatened her; denied also that any similar threats had been made by Marie at the ice cream parlor at Huntertown. Witness said she rode from Huntertown with Del Reed and Marie, but denied attempting to get out of the buggy, and said also that she had not asked to be let out of the buggy.

It was at this juncture that Prosecutor Emrick arose and briefly announced to the court that the state rested its case. After a brief recess, Judge O'Rourke announced the adjournment of court until 9 o'clock this morning, admonishing the jurors that no conclusion must be formed until the evidence for the defense had been heard, the arguments made and the instruction of the court given.

A total of eight days had been consumed thus far in the hearing of the case; two in the selection of a jury, and six in the presentation of the state's evidence. Some idea of the mass of testimony submitted may be gained from the fact that at the close of the state's case Court Stenographer Underwood's report of the proceedings covered a total of 1,18: pages of shorthand.

ONE CARDINAL IS THE LIMIT.

Washington, Oct. 31.—Unofficial advices received from Rome confirm the understanding that no papal consistory will be held before next February. In view of this fact Cardinal Martinelli, the papal delegate, will leave this country just before the meeting in Rome of the consistory, which will confer the red hat upon him. While there may be some additions to the roll of cardinals, it is certain that none of these will be from the United States. The real reason for avoiding the naming of another cardinal for this country during Cardinal Gibbons' life-time is to avoid setting a precedent for two cardinals within the United States. There are more than one, however, in countries where there is a concordat between the government and the church. There is no indication yet as to who will be Cardinal Martinelli's successor.

A DRASTIC FOOD LAW.

New York, Oct. 31.—What is said to be the strictest pure food law will go into effect in New Jersey tomorrow. Its enforcement has been intrusted to the New Jersey state bishops. Under it the office of state dairy commissioner is abolished and his duties will come under those of the chief food inspector. There will be a large number of deputies scattered all over the state. Everything that can come into use for human consumption as food or drink is included under the law. The inspection will even take in canned goods. It does not matter whether they or anything else is manufactured or put up outside of the state or not, they are liable to come under the ban of the law if the analysis to be made from time to time shows them to be unfit for human food.

LOCAL LINES.

The members of the Pan-American Pedro club enjoyed a hallowe'en party at the home of Mr. and Mrs. James Young last evening. The house was prettily decorated with vines and chrysanthemums. First prizes were awarded to J. Bohne and Mrs. Lix, while the consolations were given Mrs. Will Hammett and Charles McElfatrick. An elaborate supper was served after the games.

Miss Dora May Dobbins, of Ada, O., is the guest of her aunt, Mrs. Grey, of 247 East Wayne street.

"The Philosophy of Power; an Answer to Nietzsche," will be the subject of Rabbi Frederick Cohn's address at the Jewish temple Friday evening.

Miss Kate Fox, of the Wolf & Dessauer dry goods house, is convalescing from an illness of four weeks duration.

The Misses Kathryn Gaffney and Anna Miller entertained very pleasantly last evening at the home of Mr. and Mrs. H. Whitman. Progressive pedro and vocal and instrumental music served to entertain the guests and luncheon was served at a late hour.

ARRESTED FOR MURDER.

Bangor, Me., Oct. 31.—Thomas Gibbons, of Bangor, foreman for a lumbering concern, Fred A. Holt, of Augusta, and Mrs. Gero are under arrest for the alleged murder of Thomas Gero, at Chesuncook, news of which reached here last night.

ENEMY OF CIVILIZATION.

New York, Oct. 31.—A dispatch to the London Times and the New York Times from Berlin says the society for combatting the abuse of spirituous liquors has begun a conference at Breslau. Baron Von Diargart said at the conference he believed that alcohol would one day be universally regarded as an enemy of civilization, but at present it was only possible to recommend moderation in its use. Seven hundred and fifty millions of dollars was yearly spent in Germany on intoxicating liquors. It was estimated that the average German consumed the equivalent of five glasses of spirits a day. Baron Von Diargart added that one difficulty in the campaign was that the state itself was interested in alcohol, deriving as it did a revenue of 41,000,000 from spirits and 25,000,000 from beer. One-third of the German exports to England and one-seventh of those to East Africa consisted of alcohol.

PIONEER RESIDENT CALLED

MRS. EDWARD CONNETT DIES FROM CANCER.

Has Lived in Allen County Since 1852—Other Deaths and Funerals of the Day.

Mrs. Caroline Connett, wife of Edward Connett, died this morning at her home southwest of the city, at the age of 78 years. Mrs. Connett has been a sufferer from cancer for about two years and has been confined to her bed for the past two months.

Mrs. Connett was born in Virginia in 1823, and was maried to Mr. Connett on November 15, 1841. Mr. and Mrs. Connett moved to Allen county in 1852, and settled on the farm they now occupy, where they have lived since. Mrs. Connett was the mother of nine children, seven of whom are living. They are Martin, M. T., John, George, Edward and Allen, all of this city, and Mrs. D. Swinney, of Lancaster, Ohio. There are eighteen grandchildren and two great-grandchildren.

Deceased was very well known in Allen county, and for any years has been a regular attendant at the city markets. Mr. and Mrs. Connett celebrated their golden wedding anniversary ten years ago, and the day was the occasion of an immense gathering of relatives and friends.

Funeral services will be held from the late residence Sunday at 1:30 p. m. fom the house, and at 2:30 from Prairie Grove chapel. Interment will be in the cemetery adjoining the chapel.

MEYERS.

The day-old daughter of Mr. and Mrs. J. W. Meyers, of St. Marys avenue, died yesterday from exhaustion.

FUNERAL ANNOUNCEMENTS.

Shonts.—Funeral services of Mrs. Charles Shonts will be held from the residence Friday morning at 6:30 o'clock. The remains will be shipped to LaOtto for interment.

Gukkle.—The funeral of Mrs. Louis Gukkle will be held Friday afternoon at 1:30 from the residence, 145 Buchanan street, and at 2 o'clock from Zion's Lutheran church, Rev. C. H. Ludhr officiating.

CLOSE THEIR CASE

(Continued From First Page.)

distant. My flag lieutenant standing at my elbow reminded me that the distance between the leaders of the Spanish squadron and ourselves was approaching our tactical diameter. The stadimeter at this instant indicated 900 yards.

"The Brooklyn then swung to starboard to meet what proved to be the last of the attempts to ram the Brooklyn, for the Vizcaya then turned square to starboard and followed the Marie Teresa until the latter's destruction. These facts admit of no contradiction, for they are based upon the independent judgment and observation of two or more persons, and upon the stadimeter in the hands of a person skilled in its use."

Ten minutes were consumed in presenting this report which was admitted. Lieutenant Grant was then called as the first witness for rebuttal.

He was put on by the department to testify as to conversation in wardroom of the Massachusetts the day the Colon was bombarded to the effect that Lieutenant Sears was heard to remark: "For God's sake, don't discourage him (meaning Commodore Schley); it is all we have been able to do to work him up to this."

Mr. Raynor brought Grant's testimony to a sudden stop with an objection.

TESTIMONY IS BARRED.

Captain Parker followed with a brief speech in support of Mr. Raynor's contention. "If," he said, "commanding officers are to be judged by all the foolish and ridiculous things young officers say in the ward-room I don't know what would become of them."

The court then retired to consider the point raised.

The members of the court were in consultation for fifteen minutes, and when they returned Admiral Dewey announced the court's decision as follows: "The objection as made is sustained by the court."

SIGSBEE AGAIN WANTED.

The witness was then excused, and after a brief consultation between Captain Lemly and Mr. Hanna Captain Sigsbee was recalled.

When he had taken his seat Mr. Hanna stated that the witness had been called for the purpose of securing such facts as he might be possessed of that the court or counsel might want to elicit from him.

This statement brought Mr. Raynor to his feet with the question: "You are calling Captain Sigsbee in rebuttal, of course?"

Captain Lemly: "I don't call it rebuttal; we called Captain Sigsbee because he is wanted to testify."

Apparently Mr. Raynor was surprised. He said: "Have we the right after we have closed the case to recall witness except in rebuttal? That would lead to an interminable case. The rule of law is you can rebut anything now that we have brought out, but you cannot call witnesses to sustain former statements they have made. There is no objection to a witness in rebuttal."

HAS NOT CLOSED CASE.

Captain Lemly: "Counsel is wrong when he says I closed the case. I did not close it. I simply said 'We rest here, and I propose to call further witnesses hereafter.' I am only going to call such witnesses as the court thinks necessary in order to have the facts before it."

He contended that this is an inquiry and not a prosecution, and that the usual rules of opening and closing and of rebuttal and sur-rebuttal followed in ordinary courts of law were not to be followed in this case.

The controversy between counsel continued for some time. Mr. Hanna said he had had a conversation with Mr. Raynor in which the latter had promised to be liberal in rebutting testimony. Replying Mr. Raynor said that his promise had only applied to rebutting testimony proper.

Mr. Hanna then took up the question of the treatment of the case. He took especial exceptions to the characterization of his and Captain Lemly's conduct of the case as a "prosecution."

The court then at 12:50 p. m. took a recess until 2 o'clock without deciding the point raised.

THE COURT DECIDES.

When the court reconvened after recess Admiral Dewey announced the decision of the court on the question of rebutting testimony, holding that witnesses may be called at any time or recalled for the purpose of making corrections of former testimony or additions in the nature of corrections. They cannot, however, reiterate former evidence.

The later part of this decision was read by Captain Lemly to the witness in order that he might confine his answer in accordance therewith.

Captain Lemly then asked him to proceed to make such corrections of his testimony or such additions in the nature of corrections as he might desire.

Captain Sigsbee said the only correction he desired to make was to declare there were two assemblages aboard the Harvard, whereas when he testified he was uncertain as to that. On suggestion of Captain Lemly that he could make additions to his testimony Captain Sigsbee said:

"I desire to state that I informed Commodore Schley on the occasion of my visit to him on the 26th; first, that I thought that the St. Paul had been chased by a torpedo boat on the night of her arrival or the subsequent night; second, that I detailed to him the communication between Captain Goodrich, of the St. Louis, and myself on board the St. Paul as we passed each other when I was bound from Cape Haytien to Santiago, and the St. Louis was bound from Santiago to Cape Haytien."

The witness said that since he was formerly on the stand he had recalled that he did see the press boat Somers N. Smith on May 28 and he also recalled, he said, that on that evening he had seen the press boat Premier and had warned those aboard against remaining where they then were because of the danger of being attacked by torpedo boat destroyers.

UNCOMMON WISDOM

SOME FORT WAYNE PEOPLE PROFIT BY NEIGHBOR'S EXPERIENCE.

It's a wise man who profits by the experience of his friends and neighbors. Here is a chance to do it, and every man, woman or child in Fort Wayne who knows the misery of a bad back, the nervousness and restlessness caused by kidney complaint or the annoyance of urinary disorders, will show uncommon wisdom to profit by this citizen's advice.

Mr. William Steller, of 221 West Superior street, says: "I was broken down in health for four years, and although my kidneys were only one of the things that helped to make me ill, they caused me enough suffering to make any man think that life was not worth living. The greatest pain I felt from them was in my head, and this, in addition to the backache, nearly drove me crazy. The kidney secretions were highly colored and other symptoms of disordered kidneys existed. I procured Doan's Kidney Pills at Meyer & Co.'s drug store, and they did me a world of good. They were the only remedy that relieved me and at the same time did not leave any harmful after-effect."

THE MARKETS.

Chicago, Oct. 31.—December wheat opened a shade lower to a shade higher today at 70⅝c to 70½c on weaker cables. Considering this influence the offerings were very small and trade though light was strengthened by this factor and by a firm feeling in corn. There were not many orders in the pit and the buying was only by a few of the professionals, but prices advanced in the first hour of business to 70¾@70⅞c. Local receipts were 105 cars, none of contract grade. Minneapolis and Duluth reported 518 cars, making a total for the three points of 623 cars, against 688 last week and 536 a year ago.

December wheat sagged on a setback in corn, but reacted and closed firm at ⅞c higher at 70¾@70⅞c.

December corn opened strong on cables, wet weather in the west and small receipts, starting unchanged to ¼@⅜c higher at 57⅛c to 57¾@57⅞c and quickly advancing to 58c. Receipts were small and holders did not sell early. There was also an improvement in the shipping demand and shorts covered freely. Receipts were 130 cars.

On profit-taking December corn sold back to its opening price. Continued scarcity of offerings, however, brought a firm close, ¾@⅞c higher, at 57⅝@58c.

Oats opened strong and higher with an excellent commission house trade and aggressive buying by professionals on the strength in corn. December started ¼c up at 37c and eased a trifle on early profit-taking, but later sold up to 37½c. Receipts were 123 cars.

Provisions were dull again with light trade on a lower hog market. January pork opened unchanged at $14.90, eased off 2½c and reacted to $14.95. January lard opened unchanged at $8.70 and January ribs steady at $7.70.

THE DAY ON WALL STREET.

New York, Oct. 31.—Business was more active than of late at the opening of the stock market, but there was an absence of any decided tendency to prices. Changes either way were small with the railway list under pressure. Amalgamated Copper opened a shade higher at 87, but immediately dropped a point. The local stocks were strengthened by the rise in Manhattan to 122½.

Special stocks were bid up strongly but their advance was without sympathetic effect. For instance, Delaware and Hudson advanced 2½ to 173½, but other dealers were barely steady, although there was some improvement in Pennsylvania. The junior Vanderbilts, including Lake Erie and Western, New York, Chicago and St. Louis and C., C., C. & St. L. preferred were ¾@1¼ higher and National Salt preferred, Hocking Valley and Buffalo, Rochester and Pittsburg preferred a point.

Amalgamated Copper was supported below 86 and recovered to yesterday's close. Liquidation was renewed in Glucose, dropping it to 37. Scarcely any movement occurred in the grangers and Pacifics, these stocks being conspicuously neglected.

There was no aggressive selling in any quarter, but prices drooped steadily. Losses, however, were limited to fractions in the leaders excepting Amalgamated Copper, which returned to the low point. Great Northern preferred, Lackawanna and Cotton Oil preferred lost a point and Virginia-Carolina Chemical rose 1½. Glucose decline was characteristic, supporting orders lifting it ½ over yesterday's close to 30 with a later setback.

New York Central became prominent after midday and advanced over a point to 150½. The other Vanderbilts did not sympathize except C., C., C. & St. L. preferred, which increased its rise to 2¼. A renewed demand for the high-priced coolers carried them to the best, Lackawanna rallying 2⅞. Pere Marquette gained 2½. A drive against Smelting uncovered some stop-loss orders and the price fell 2¾.

Special stocks were advanced, but elsewhere there was a steady decline, reaching about a point in St. Paul, Union Pacific, Metropolitan Street Railway, Amalgamated Copper and United States Steel. The weakness of the last mentioned increased the heaviness of the market. Chesapeake and Ohio ran up ¼ to 47, and Wisconsin Central preferred advanced a point. Lake Erie and Western preferred rose 4¼.

Prices wavered uncertainly within a narrow compass, but tended lower. Lackawanna rose 3 points over yesterday, American Express 2, General Electric 1½, the Minneapolis, St. Paul and Sault Ste. Marie stocks a point each. Delaware and Hudson reacted 1⅝, while Rock Island lost 1¼ and American Bicycle preferred ¾. Many of the leaders were a point under last night. The closing was dull and easy at the low point.

Bonds were irregular.

THE MONEY MARKET.

New York, Oct. 31.—Money on call firm at 3½@4 per cent; prime mercantile paper, 4½@5 per cent; sterling exchange firm with actual business in bankers' bills at $4.86¾@4.87 for demand and at $4.83¾@4.84 for 60 days; posted rates, $4.84½ and $4.87½; commercial bills, $4.83@4.83½; bar silver, 57¾c; Mexican dollars, 45¼c.

APPENDICITIS.

Some Facts Regarding Its Rapid Increase.

Appendicitis among Americans is certainly increasing and while this is probably due to the excitement and worry of American business life, it is more often directly traceable to constipation. Appendicitis is caused by extraneous matter entering the vermiform appendix and not by the swallowing of seeds. If the digestive organs are kept in perfect condition so the food is duly assimilated and the bowels move gently, at least once a day, appendicitis will never develop. Don't take chances. Regular doses of Dr. Caldwell's Syrup Pepsin before meals will strengthen the organs of digestion, your appetite will be good, constipation disappears and you feel better in every way. Dr. Caldwell's Syrup Pepsin does not relax the bowels by irritation, but by curing indigestion, the cause of constipation. Your druggist sells it. If not, send us his name and we will send a trial bottle free and some of the strongest endorsements of a medicine you ever read. Pepsin Syrup Co., Monticello, Ills., U. S. A.

A NEGRO SHOT; THEN HANGED

KENTUCKY MOB QUIETLY HAS A LYNCHING.

Victim Had Compelled Young Boy to Commit Unnatural Crime—A Futile Dash for Liberty.

Hodgenville, Ky., Oct. 31.—A mob of fifty or seventy-five determined citizens came down upon this little town early today and took from the jail Silas Esters, a negro, charged with forcing Granville Ward, a 15-year-old boy residing near Upton, to commit an unnatural crime, and strung him to the court house steps. The citizens composing the lynching party quietly approached the jail and on their demand the keys were surrendered to them.

The cell in which the negro was confined was entered and the noose was adjusted about his neck.

He was dragged down the jail stairs and out into the street. He managed to slip the noose from his neck and made a break for liberty. The mob, crazed with anger, made after the negro, howling and fired at him with guns and pistols. The negro fell when about 100 yards from the jail house, riddled with bullets.

The noose was again placed about the negro's neck, and he was dragged to the court house and swung to the topmost steps.

The mob was formed in the neighborhood of the crime.

Mother's Friend.

A Promoter of Health.

Mother's Friend puts comfort and ease in a married woman's back and limbs. She applies it externally—no dosing and swallowing of nasty drugs—no internal treatment at all. This liniment strengthens, invigorates, quickens and frees-ens the muscular tissues, gives them elasticity, makes the tendons supple and stimulates the sinews. It is intended solely for expectant mothers. If applied regularly throughout the whole period of pregnancy, morning sickness is escaped. It is soothing, and quiets the nerves.

Labor is quickly and almost painlessly passed. Bright, sweet, healthy babies are born under the conditions wrought by Mother's Friend, and the mother's strength soon rallies. Women who dread the paramount issue are ignorant of the means that art and science do give toward assisting nature, in this event where the mother's life is of equal importance to that of the child who is born.

All reliable druggists have **Mother's Friend,** and the price is $1 per bottle.

A worthy book "Motherhood" will be sent free on application to

GETS PROMOTION

HARRY BEARINGER BECOMES NIGHT TICKET RECEIVER.

J. H. M'CONNELL ADVANCED

SUCCEEDS W. GERBERDING AS WAREHOUSE CLERK.

SECTION MAN BADLY HURT

HENRY HAUSCHILD STRUCK WITH PICK.

Two more promotions of a meritorious character occurred yesterday at the Pittsburg offices. Harry L. Bearinger has been appointed night ticket receiver and will assume the duties of that office tonight. James H. McConnell has been advanced to the head of the clerical department in the warehouse office at the freight depot, succeeding Walter Gerberding, who resigned two weeks ago. Mr. McConnell has been acting chief clerk ever since Mr. Gerberding left and while in that capacity he demonstrated an ability to fill the office satisfactorily, and hence his appointment. He has been in the freight office about three years and has served well in the various positions he has filled in that time. Mr. Bearinger has been in the employ of the cashier department ever since he left school and is thoroughly informed in every detail of the work. He is an expert accountant and his talents in this line will come quite handy in the position he will assume tonight.

THE INSPECTION PARTY.

General Manager G. L. Peck and General Supt. Charles Watts and the motive power and division officials of the Pennsylvania company, about 150 in number, arrived in the city at 9:20 o'clock this morning and remained here about thirty minutes. In the party were a number of former Fort Wayne citizens who are now holding official positions with the company elsewhere. Included in this class was Supt. C. S. Sims, of the Chicago terminal, who was given a hearty greeting by the office and depot attaches who were there when the trains arrived. The first train was in charge of Conductor W. E. Lipsett and Brakeman W. B. Barber, the second in charge of Conductor M. O. Ginty and Brakeman George Roberts and the third in charge of Conductor Joe Morgan and Brakeman A. C. Kyle. The engineers were Panhandle men, and the following officiated as pilots in the cabs in the order named: Assistant Road Foreman R. J. Lyons, Road Foreman C. R. Colmey and Engineer Philip Titus.

SECTION MAN'S MISHAP.

Henry Hauschild, employed as a section hand by the Nickel Plate, received a bad wound yesterday afternoon. The section gang is engaged in taking out damaged ties in the yards and it was there the accident occurred. One of the men was in the act of sticking his pick into the end of a tie, with a view of pulling the timber from beneath the rails, and when the pick was descending Hauschild stepped backwards and received the blow. The sharp point of the pick passed entirely through the fleshy part of his left leg at the lower part of the calf. Companions took Hauschild to Ewing street on a hand car and thence in a carriage to Dr. Dinnen's office, where his injuries were attended to. Dr. Dinnen says the bone was not fractured by the blow.

EYE BADLY HURT.

While handling a pick on the Wabash road last evening George Wooten, a section man, had an eye badly injured by a piece of metal thrown up by the tool. After receiving attention from the local surgeon Mr. Wooten was sent to the company's hospital at Springfield to receive treatment from the company's specialist.

A BUSY ESTABLISHMENT.

The Kerr Murray Manufacturing company is receiving orders for the products of its shops at a rate beyond the ordinary capacity of the factory and as a result some of the departments are running over-time. The boiler shop is particularly busy and the men there are working eleven and twelve hours per day.

RETURNS TO OLD PLACE.

M. E. Tuttle, who last spring took a six months' leave of absence from the Pennsylvania dispatcher's office in the interest of his health, will return to that office tonight. During his absence he was on a farm in Ohio and the sojourn there resulted in complete restoration to health. The return of Mr. Tuttle releases William Ross, who has been transferred to the Grand Rapids and Indiana dispatcher's office to fill a vacancy recently made. Up to last spring Mr. Ross was on the Chicago Terminal division and prior to that service he was employed here in the telegraph department.

DEDICATED HIS NEW HOME.

A most enjoyable house warming occurred on Liberty street last evening, the host and hostess being Mr. and Mrs. William Harges and the guests some of the foremen and employes at the Olds Wagon works and other friends of the couple. Cards, music, song and feasting were included in the amusements and all present had one of the best times of their lives. Mr. Harges is a blacksmith and is employed in that capacity at the wagon works. He moved into his new home a few days ago.

WILL GO TO CALIFORNIA.

Dispatcher C. W. Smith, of the Grand Rapids and Indiana road, will leave the latter part of next week for California, where he will accept a position with a railway company. He has notified Supt. J. W. Hunter of his determination to resign, but he is still working at the office. Mr. Smith is a good railway man and is competent to fill any position in the transportation department. He makes the change because he believes he is bettering his chances for advancement by so doing.

ANOTHER INTERURBAN.

According to a special dispatch to the St. Louis Globe-Democrat the proposed electric line from Fort Wayne to Goshen has been advanced to the point where it can be said to have assumed tangible form. The telegram bears the date of October 30 and was sent out from Elkhart, and reads as follows: "The county commissioners of Elkhart county have granted James F. Rothwell, of St. Louis, a franchise to build an electric line along highways from Goshen through the southeast quarter of the county. The line is to be constructed between Goshen and Fort Wayne and connect at Goshen with the line of the Indiana railway company, which joins Goshen, Elkhart, Mishawaka and South Bend, and is to be extended next spring to Benton Harbor. Mr. Rothwell deposited a cash forfeit of $1,000 to expend at least $25,000 in construction within the first year from date of the franchise and to have cars in operation within a year."

WILL GET A NEW BANNER.

In the future, when it becomes necessary for A. G. Porter lodge, No. 141, Brotherhood of Locomotive Firemen, to turn out in parade, they will march beneath and behind one of the most beautiful banners ever seen in Fort Wayne. It has been ordered and will arrive here next week. The banner will be presented to the lodge by the Ladies' society and the design was suggested by the ladies and submitted to the firemen for approval. The banner will be constructed of the finest silk, with rich adornments in the way of tassels and trimmings. Across the top will be gilt letters, reading "A. G. Porter lodge," while across the bottom are the initial letters of the brotherhood and the name of the city. The central figure is a fine painting of an engine, bearing the number 141, which is that of the order. When the banner arrives the presentation will be the occasion for a banquet and general good time.

AN UNEQUALED RECORD

THERE IS A RAPIDLY INCREASING COLUMN OF FORT WAYNE EVIDENCE ROLLING UP FOR THE GREAT MEDICINE, DR. A. W. CHASE'S NERVE PILLS.

It would seem that hardly anyone can take Dr. A. W. Chase's Nerve Pills without receiving marked benefit. The wonderful action of this medicine in putting people on their feet who are in a weak, run-down condition is the talk of every place they are known. It is only a short time since they first came to Fort Wayne, yet today they are more in evidence for merit with Fort Wayne people than all other medicines combined.

Mrs. W. S. Barlow, of 285 West Main street, Fort Wayne, Ind., says: "As a cure of nervous sick headache, arising from a debilitated, run-down nervous system, I can recommend Dr. A. W. Chase's Nerve Pills. I got at Meyer Bros.'s drug store, No. 14 Calhoun street. They successfully disposed of my headaches and toned up the nerves and stopped an old-time dizziness associated with the headaches."

Dr. A. W. Chase's Nerve Pills are sold at 50c a box at dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

FOR OLD AGE

To the old, as to babies, the even balance of health is more important than anything else in the world. The possible health, in age, is not high and strong; it is only even.

There is no end, but death to the trouble that comes of its loss.

It ought to be watched like a baby's.

Their future is short; but oh how it turns on comfort! on whether the wrinkles are wrinkles of pain or of long serene enjoyment!

Scott's emulsion of cod-liver oil—for very old and very young in different ways—is the food to secure this even condition of health.

We'll send you a little to try, if you like.

SCOTT & BOWNE, 409 Pearl street, New York.

INDUSTRIAL NOTES.

Pittsburg Engineer B. F. Campbell is sick and off duty.

Mrs. Theo. Gould left yesterday for New York to visit her son Carroll.

William D. Stradley, of the Wabash boiler shop, is sick and off duty.

Nickel Plate Engineer F. P. Sleeper reported for work yesterday, after a week's illness.

W. O. Granger is a new fireman on the Nickel Plate, he commencing work there this morning.

Paul Geiger, who had been visiting his mother at Troy, Ohio, resumed his duties at the electric works this morning.

Compound engine 839, just out of the Richmond shops, arrived at the Wabash shops for adjustment this morning.

Next Monday A. G. Porter lodge, B. of L. F., and the Ladies' sociery will hold a joint meeting at the hall on Calhoun street.

Mr. and Mrs. Thomas Albright went to South Whitley to attend the funeral of a relative. Mr. Albright is a Nickel Plate fireman.

Brakeman C. A. Seymour has recovered from injuries received two weeks ago. He reported for duty on the Nickel Plate yesterday.

After November 1 Atlanta will be the headquarters of the Southern Pacific for the southeastern states, with Harry W. Nathan as general agent.

Contractor Adolph Grotholtman this morning commenced the erection of a dwelling house at the corner of Walton avenue and Pontiac street.

George Sunley, switchman in the Pittsburg yards, is off duty today to attend the wedding of his sister-in-law, which takes place at his residence.

While on his recent trip, which ended in New York on Saturday night, George Gould and family traveled 5,000 miles over roads controlled and owned by him.

Peter Neumann, of the Pittsburg round house, who stepped upon a nail and injured one of his feet a week ago, was able to resume his work this morning.

Among the shipments from the electric works this morning were a 300-light dynamo to Lawrence, Mass., and a 300-light machine to Willoughby, Ohio.

George Birelein, A. Bugert, Henry Tonsing and J. Weber are sick and R. A. LaMar and H. F. Geerken are off duty for unknown reasons. They are Pittsburg shopmen.

Engineer Al Baer will spend a week at his old home in Pennsylvania—Connellsville. He left for that place yesterday. Mr. Baer is employed on the Nickel Plate.

Harry O. Russell, local freight brakeman on the Fort Wayne-Knox run of the Nickel Plate, is taking a lay off for the purpose of fishing at one of the lakes in the vicinity of Knox.

R. W. Shaw, Martin Crawford and M. Gans, who were sick, and J. G. Roper, who was off duty on account of the sickness of a relative, resumed their respective duties in the Pittsburg shops this morning.

The Union Pacific made a record run last Saturday with a fifty-car stock train from Cheyenne to South Omaha, covering the distance in nineteen hours and thirty-five minutes. The distance is 550 miles.

Cornelius Vanderbilt denies that his trip over the Chicago Great Western is for any purpose than to interest the management in his locomotive patents, and that the same is true of his trip over the Chicago, Rock Island and Pacific.

William Paul, general foreman of the Wabash shops, has returned to the city after a ten days' most pleasant visit in Colorado Springs, Col. C. Z. Bond, who was serving during the absence of Mr. Paul as general foreman, has resumed charge of the roundhouse.

Conductor G. B. Maxwell, of the Nickel Plate, is taking a few days' rest before resuming his place in the road service. He had been on the west end work train, which has been taken out of service. The engine, No. 17, will go into the through freight service.

W. W. Woodford, the new general superintendent of the Pittsburg division of the Pennsylvania, entered railroad service when fifteen years of age as a clerk in a superintendent's office. Since March, 1893, he has been general manager of the Cleveland, Lorain and Wheeling.

One of the New York Central's Atlantic type of engine made the run from Rochester to Syracuse with nine mail and express cars on Monday in seventy-nine minutes; distance, eighty-one miles, eclipsing all records between those points, the Empire State express not excepted.

Westbound passenger trains on the Nickel Plate were late in reaching the city yesterday. No. 1's engine became partly disabled and assistance had to be given, but before it could be provided the train had fallen behind its schedule one hour and forty-five minutes. No. 3 was late in getting out of Buffalo and was three hours and thirty-minutes late when she pulled into Fort Wayne.

ABOUT THE CITY HALL.

The committee of the whole will meet again tomorrow night to discuss interurban railroads, but more particularly the Southwestern company's franchise to enter the city.

The city officers, firemen, policemen and all regular employes except street and park will be paid tomorrow.

The board of works will meet this evening in regular session. There is nothing of importance before the board and if interurban questions are to be taken up the clerk has not yet been notified.

Councilman E. J. Ehrmann has called the special council committee of which he is chairman to meet at the city hall tomorrow afternoon at 2:30. The committee will meet with the board of works to hear the proposition submitted by R. B. Hanna more fully explained. Mr. Hanna is advocating a general terminal proposition, the proposed improvement to be built by private Fort Wayne capital and eventually to revert absolutely to the city.

A letter addressed to Dr. Samuel E. George, in care of Mayor Bergdoll, has been received at the city hall. Dr. George is the president of the Fort Wayne, Dayton and Cincinnati railroad and is expected in the city daily. He was to have been here last week, but was delayed by circumstances connected with the survey on the south end of the line. As the letter is enclosed in an official envelope of the company, it is fair to presume that he will be here within a day.

King Stanley, the gypsy chief, has taken out nine licenses, permitting his followers to tell fortunes in the city.

CELEBRATED AHEAD OF TIME.

Superintendent Gorsline's orders to the effect that the police prevent undue pranks tonight had the effect of inducing a premature Hallowe'en celebration last evening. Few reports of actual damage to property have been received, but there were a great many tricks played. Several gates are reported missing, a few wagons and buggies were borrowed for a few hours, movable articles on lawns and porches were displaced or are missing and the time-honored salute of windows with beans and corn was duly observed.

REV. GROSS COMING HOME.

Rev. C. Gross, pastor of Emanuel Lutheran church, who underwent an operation at St. Louis some weeks ago, will leave the hospital today or tomorrow and expects to return home next week. Rev. Gross is making a good recovery and last Sunday he was able to attend church in the morning, visiting several friends in the afternoon.

The reception that was to be given Friday evening by the ladies of the First Presbyterian Church has been postponed for one week. 31t2

REFORMATION ANNIVERSARY

LUTHERAN CHURCHES CELEBRATE TODAY.

Special Services to Be Held in German Lutheran Churches This Evening.

On October 31, 1517, three hundred years ago today, Martin Luther posted on the gate of Wittenberg college his famous theses denouncing the course pursued by the Roman church in certain matters, and today Lutheran churches in all parts of the world are holding special services in honor of the anniversary of the reformation.

In all the German churches of the city special services will be held this evening and sermons befitting the occasion will be preached. In a few of the churches special musical programs will be rendered, while in St. John's church a musical entertainment by the Luther society will take the place of the regular sermon.

Services will be held in St. Paul's church on Barr street at 8 o'clock this evening, and Rev. H. C. Jaus will preach the sermon.

Prof. L. Dorn, of Concordia college, will officiate at Concordia church at 7:30 o'clock and the Lord's supper will be partaken of. At Emmaus church there will be a special musical service for children. Rev. C. H. Lucht will occupy the pulpit at Zion's church, the services beginning at 7:30. There will be no services at Emmanuel church, nor in the English Lutheran churches.

It is customary to hold services on the Sunday nearest Oct. 31 and special services will be held next Sunday in both German and English Lutheran churches commemorative of the reformation.

ALMA-BROMO EFFERVESCENT SALT

For over ten years this natural product---from the renowned Alma-Bromo Spring at Alma, Mich., has been used in treating diseases of the liver and kidneys and constipation, by the staff of physicians of the Alma Sanitarium. The effects have been carefully noted in many hundreds of cases, and in no case have the results been other than perfectly satisfactory.

No artificial product---no compound, liquid or other of the chemical laboratory or the patent medicine factory---possesses the peculiar merits of this Salt of the Earth coming from a spring over half a mile below the surface of the earth.

ALMA-BROMO EFFERVESCENT SALT keeps the bowels free from all waste matter which accumulates after digestion. It increases the action of the liver and kidneys and acts as a natural sedative in all nervous conditions. Its taste is pleasant and its effects gentle and painless.

No nausea, no cramps, no unpleasant effects of any kind result from its use. It simply helps Nature to act in Nature's own way.

It is on sale by Druggists generally at 50 cents a bottle. A free sample bottle will be sent you by mail, postpaid, if you write to the Michigan Drug Co., Detroit, Mich., who are the general distributors of this natural product.
